Deny Collaboration With
Germans—Gloss Over
Atrocities

By JOHN RICH
(U. S. Staff Correspondent)

TOKYO, Aug. 4.—(INS)—

The Tokyo war crimes trial reopened today, after six-week recess, with the defense contending that what it called a "pathetically weak" Japan was provoked into a "war of self-preservation."

Sir William Webb, Australian president of the eleven-nation far eastern tribunal, called the session to order and indicated the trial of 25 former Japanese leaders may continue well into next year.

Justifies Delay

He said the attorneys for "Pearl Harbor Premier" Hideki Tojo and his 24 co-defendants would be justified in taking until May, 1948, to present their evidence.

All the accused men were in the courtroom. All looked healthy. Only seven of the judges were on the bench however. The other four (Continued on Page Two)

Plan To Revive German Pictures

WASHINGTON, Aug. 4.—(INS)—The U. S. Army in Europe announced today that plans are underway for the German motion picture industry to resume competitive activity in the world cinema market.

The action followed by several months the urging of Eric Johnston, president of the Motion Picture Association of America, to rehabilitate the once art-conscious German film industry.

Colonel Gordon Textor, informed control chief in Germany, said all production would be supervised by U. S. occupation commanders and film employees would be required to have "clean political bills of health" and high moral standards.

Pa Newc Observes

Pa Newc noted two lads who were becoming time conscious. They were seated on the curb in front of the North Street cinema building when they glanced at each other in horror as they realized they were wasting some precious time. They galloped down the street as though they had just made a startling discovery, trying to make up for lost time.

Despite this morning's hot weather which blanketed the city, one fine day from his chimney. Evidently trying the boilers out for next winter's anticipated cold wave.

A tour of the recently asphalted Atlantic avenue and South Jefferson-Moravia street area, reveals that quite a transformation has been made, not only in appearance, but in the smoothness of the street. By winter, both the city and county should enjoy some of the smoothest motoring that has been in effect for many a day.

Six Die In Blast On Neville Island

PITTSBURGH, Aug. 4.—(INS)—Allegheny county officials and company heads today were conducting an investigation to determine cause of an explosion which Saturday rocked the Pittsburgh Coke and Chemical company plant on Neville Island, near Pittsburgh, causing six deaths.

The blast, which occurred in the pressing room where coal is pulverized and pressed into blocks, and the resultant fire, caused damage

Falls From Auto, Dies In Hospital

Miss Florence Irene Ryder
Dies Of Fractured Skull
After Accident

Miss Florence Irene Ryder, aged 27 years, daughter of Mr. and Mrs. James M. Ryder, of 119 East street, died in the Jameson Memorial hospital at 1:14 a. m. Sunday morning, after she had received a fractured skull in a fall from a moving automobile, on West Grant street, about an hour and a half previously.

Miss Ryder, in company with her fiancé, DeWayne Gibson, of Box 606, R. D. 1, Gardner, had spent the evening together, and were returning to the city, driving east on Route 422. Mr. Price was at the wheel and Miss Ryder and Mr. Gibson were sitting together in the back seat.

According to Mr. Gibson, they had a little lover's spat on the way home and when they reached a point near the intersection of West Grant street and Bell avenue they had made up. Miss Ryder then opened the door of the car and fell out before Mr. Gibson could catch hold of her clothing to prevent the accident.

As her feet struck the ground, she was thrown violently to the pavement, although the car, it is said, was only traveling at a moderate speed.

Meyers Explain Presents To Faye

Says He Gave Her \$54 Bag
Which Was Paid For By
Hughes Company

WASHINGTON, Aug. 4.—(INS)—John Meyer, Howard Hughes' chauffeur, today told the Brewster committee that he gave movie actress Faye Emerson, wife of Elliott Roosevelt, a \$54 handbag as a gift from his plane-building boss in September, 1944.

As Meyer testified, Roosevelt sat a few feet away, waiting to tell the committee all about the connection—if any—between the entertainment and gifts he and his wife accepted from Meyer and 70 million-dollar plane contract his recommendation won for Hughes.

Roosevelt was scheduled to take the witness stand as soon as the committee finished questioning Meyer on the \$5,000 he spent on entertaining the Roosevelts during the war years.

The gift to Mrs. Roosevelt was revealed when Sen. Ferguson (R) Mich., chairman of the subcommittee conducting a probe into Hughes' government plane contracts, asked about a bill from a New York shop for two handbags and two wallets totalling \$139.75.

Meyer testified that the wallets were sent back, but that the handbags were given to Mrs. Roosevelt and to Judy Cook.

Miss Cook has been frequently mentioned as one of the party-girls who took part in the "entertainments" Meyer staged.

The bill for the bags was paid by Hughes Aircraft Co.

THREE PITTSBURGH RESIDENTS KILLED IN HOME ACCIDENTS

PITTSBURGH, Aug. 4.—(INS)—Three Pittsburgh residents died over the weekend as a result of injuries suffered in falls in their homes.
Albert Page, 80, was almost instantly killed Sunday when his neck was broken in a fall down a flight of stairs.
Mrs. Ada Ford, 68, died of a cerebral hemorrhage following a broken left femur suffered when she fell July 8.
Edward Wolfelt, 58, died Sunday night of a fractured vertebra in his back caused when he fell in his home.

estimated at \$100,000 by R. M. Marshall, president of the firm. James McGrady, 48, Carnegie, Pa.; James Voletta, 23, Pittsburgh, and Joseph Schowalt, 45, of Suburban Coraopolis, all died Sunday. Joseph Milk, 29, and Joseph J. Weiss, 48, both of Carnegie, and John Molyarski, 31, of McKees Rocks, previously had succumbed to burns and injuries suffered in the explosion.
Two others injured in the blast were reported in fair condition in a Pittsburgh hospital.

Secretary Royall Back From Europe

WASHINGTON, Aug. 4.—(INS)—Secretary of War Kenneth C. Royall returned to Washington this morning from a flying trip to Europe.

The secretary, who left the capital a week ago today, conferred in Europe with Gen. Lucius B. Clay, American occupation commander in Germany, on matters affecting U. S. policy in occupied zones.

In a news conference shortly before he left Berlin, Royall denied there is any rift between the State and War departments over administration of the American occupation areas.

Militant Parson Fired By Baptists

Denounces 'White Primary'
In Georgia—Looking For
New Job

McRAE, Ga., Aug. 4.—(INS)—The Rev. Joseph A. Rabun, a former navy chaplain, who opposed Georgia's white primary, today was looking for a new church.

The young pastor was asked to resign yesterday as pastor of the McRae First Baptist church by members of his congregation.

Rabun had once offered his resignation when members of the congregation expressed disapproval of his stand on the white primary last February.

At that time, the board of deacons decided against putting the issue up to the congregation.

The young clergyman became the subject of national interest last year when as the pastor of the church where the late Eugene Talmadge attended, he denounced the white primary and the infusion of racial issues in a political campaign.

Since that time, members of the congregation registered their disapproval of their pastor's stand, by attending other churches.

Herman Talmadge, son of Eugene Talmadge, transferred his membership to another church.

Round-The-World Flight To Start

Former Army Air Pilot
Scheduled To Hop Off
Today On Solo Flight

CHICAGO, Aug. 4.—(INS)—Mechanics were repairing faulty wiring to the radio direction finder of the converted army bomber in which William P. Odom, 27-year-old former army pilot, hopes to take off from Chicago today on a round-the-world solo flight.

Odom, who was scheduled to hop off yesterday, postponed his take-off last night after cross wires were discovered in the plane's navigation equipment.

Milton Reynolds, millionaire pen manufacturer and sponsor of the flight, said the take-off was scheduled for 2 p. m. (CDT) today from the Chicago International Airport. Mechanics swarmed over the plane in a last check-up of all equipment for the start of the first globe-girdling flight ever to start from the Chicago area.

Bringing In The Sheaves

Not yet outmoded is this method of harvesting. Since the advent of the combine, horses and wheat shocks have almost disappeared, but a few are still seen in various parts of the country.

The bundles of wheat are heavy, for the straw is long, and the heads of wheat fairly full. In the above picture, the men on the ground have the hard job, tossing up the sheaves of grain to the "builders" on the load.
Threshing will be remembered as a hot, dusty, hard job for both the farmer and his wife, for threshing requires plenty of helpers, and the helpers must be fed.
This picture, taken on the John L. Long farm, North Beaver township, shows the abundance of grain, and the closeness of the shocks on the ground.

UN Seeks Answer To Greek Problem

Expect Soviets To Veto Plan
—Greeks Ask Halt Of
Undeclared War

By PIERRE J. HUSS
(U. S. Staff Correspondent)

LAKE SUCCESS, N. Y., Aug. 4.—The United Nations Security Council, heartened by its victory Friday in forcing a truce in the Dutch-Indonesian war, at 3 o'clock this afternoon will try once more for a solution of the Greek dispute.

Although the Soviet Union has blocked by a veto the U. S. demand for a semi-permanent UN Balkan "watchdog" commission, the Greek government has invoked chapter VII of the U. N. charter in asking the Council "to halt the spread of undeclared war."

This is the chapter which provides for a possible trade, postal and communications boycott of aggressor nations and even of use of UN armed forces if necessary.

Call For Truce
The strong American-amended Australian resolution adopted by an 8-0 vote Friday calling for a truce in the Dutch-Indonesian conflict also was so worded as to come under this chapter.

Today, however, the Russians were not expected to back the United States, against Albania, Yugoslavia and Bulgaria as they did against the Dutch last Friday.

In essence the 11-nation body is faced with the weary necessity of extracting much of the argument about guerrilla warfare across the Helene borders.

EX-MESS CHIEF IS ALLEGHENY KITCHEN "SUB"

MEADVILLE, Pa., Aug. 4.—(INS)—When the cook at the Phi Delta Theta house on the Allegheny college campus in Meadville went on vacation recently, Bill Glenn, sophomore from Erie, Pa., knew what to do about the appetites of his fraternity brothers.

Bill put on an apron and did the cooking himself.
It was nothing new to him. He'd been a mess sergeant during the war.

"This is just about the same thing," Glenn said. "Like the G.I.s. Of course, most of these fellows are ex-G.I.s, anyway, and have had experience grilling."

Child Bystander Killed In Chase Of Murder Suspect

NEW YORK, Aug. 4.—(INS)—Nick Marinaccio, 19, wanted for questioning in a holdup murder, was in critical condition today after a police chase in which a six-year-old boy was accidentally killed by a stray bullet.

Marinaccio, a merchant seaman, was shot by detectives last night after escaping from a police trap Sunday morning in which his companion Francis Muskatovich, 17, was captured. Police had sought him in the slaying of a Manhattan candy store proprietor.

The dead child, Emilio Urrutia, had been sitting in a parked car with his father when detectives fired a half dozen shots at Marinaccio who had taken cover behind an elevated pillar at a Bronx intersection teeming with people and vehicles.

One struck Marinaccio in the neck, another in the back and a third hit the Urrutia boy in the head. The child died en route to a hospital.

Seek Peace Plan To Avert Strike In Ford Plants

Ford Charges Impending

DEADLINE SCHEDULED
FOR TOMORROW NOON

DETROIT, Aug. 4.—(INS)—Negotiations for the Ford Motor company and the CIO-United Automobile Workers union were scheduled to meet again today in a last minute effort to avert a strike of 107,000 Ford employees throughout the nation.

Two major issues remained unresolved before an agreement can be reached to prevent a walkout scheduled for tomorrow noon that would tie up more than 40 Ford plants.

Ford Not Present
Henry Ford II, president of the Ford Motor company, refused to attend today's session and explained:

"I do not think my attendance at this morning's session could add anything helpful."

In a telegram of refusal to Richard T. Leonard, UAW-CIO president, Ford charged that the strike the union "seems determined to call will not be an attack on the labor policy of Ford Motor company but a strike against a law."

The main issue dividing the negotiators was the union's demand for unqualified exemption from the provisions of the Taft-Hartley act (Continued on Page Two)

Elliott To Tell Of Lush Parties

Late President's Son To Give
His Version Of Hughes
Financed Parties

By CHARLES B. SEIBB
(U. S. Staff Correspondent)

WASHINGTON, Aug. 4.—Elliott Roosevelt today gives the Brewster committee his version of the connection—if any—between the lavish entertainment he received from Howard Hughes and the seventy-million-dollar army contract his recommendation won for the fabulous young plane builder.

Roosevelt, arrived at Washington Airport last evening in high good humor, but he refused to comment for reporters on the Hughes-financed night life of which he is accused of partaking. His beautiful actress wife, Faye Emerson, couldn't make the trip, however.

Rough Treatment
The handsome second son of the late president was promised rough sledding in the dynamite-charged hearing room of the Senate's war investigators.

Already on the record are figures showing that Hughes, through his publicity man—wise-cracking, free-spending Johnny Meyer, spent some \$5,000 on entertainment for Elliott (Continued on Page Seven)

To Cease War

BATAVIA, Aug. 4.—(INS)—Netherlands forces reportedly staged an amphibious landing on Maadoera Island today, only a few hours before a "cease fire" order halting fighting with Indonesian republican troops was to become effective.

The seaborne thrust at the island off the naval base city of Soerabaya, on the north coast of Java, was reported by the republican radio at Jogjakarta.

The broadcast said that troops, tanks and trucks were put ashore under aerial cover.

Down Plane
At the same time, the Republicans claimed that their ground batteries shot down one of the covering Dutch planes.

Netherlands troops generally were improving their positions in other sectors, pending termination of hostilities at midnight.

Little or no resistance was encountered by the Dutch, however, though they did find evidence of Republican "scorched earth" tactics when they occupied Tjilatjap yesterday.

By occupying this Indian ocean port on the southern coast of Java, the Netherlands troops completed their isolation of western Java from the rest of the island.

West Point Grads To Join Middies

Class Of '49 To Join In
Chesapeake Bay Maneuvers With Navy

WEST POINT, N. Y., Aug. 4.—(INS)—The West Point class of 1949, totalling 590, was steaming south today aboard the Army Transport Gen. Taylor to keep a rendezvous with the Annapolis class of '49 in the Chesapeake Bay area.

The operation, "Camid II," entails joint exercises with the amphibious forces of the U. S. Atlantic fleet.

The purpose of the exercise is to afford corresponding classes of the service academies an opportunity to become acquainted by living and working together while learning the techniques of amphibious operations.

This joint action follows the recent adoption of service unification. The word "Camid," coined last summer with the inauguration of the joint training program, signifies the combination of cadets and midshipmen.

Oh, the roasting ears are ripening in the sun, with a promise of a feast that's yet to be; golden yellow, on the stalk, that's a promise you'll agree of a party in the woods or on the farm, where a fellow lets his appetite run wild, where he gorges on the corn and other stuff and a half a dozen ears is merely mild. Just a little while to wait until they're ripe, and those corn roasts aren't so very far away. Golden Bantam, hybrids, too, and the weather's up to ninety-five today.

Aircraft Producer Belligerent As He Prepares To Fly East

Reports earlier had circulated that Hughes would fly the photo-reconnaissance ship, which nearly cost him his life last year, to the hearing in an effort to show the committee its performance records.

Hughes has been in hiding since Friday morning, dodging U. S. marshal's deputies who have attempted to serve Senator Homer Ferguson's "forth-with" subpoena upon him. Saturday, Hughes declared:

LONDON, Aug. 4.—(INS)—Fifteen persons were under arrest to-day following a weekend of anti-Jewish demonstrations throughout Britain, touched off by the Palestine underground's reprisal-hanging

In Manchester, fire hoses were used to disperse a crowd of some 300 to 400 persons who gathered outside a Jewish-sponsored dance, menacing the dancers and refusing to permit them to leave.

We wish to thank our friends, neighbors, and relatives for kindness and sympathy extended during the recent bereavement. Also for beautiful flowers and cars donated.

HANNA-RISHLE VOWS EXCHANGED

Central Presbyterian church was the scene of the wedding Friday evening, August 1, at 7 o'clock of Miss Edna Hanna, daughter of Mr. and Mrs. Edwin Hanna, of 25 Round street, and Donald L. Rishel, son of Mrs. Griff Rishel, of 1109 West Washington street.

Rev. W. J. Holmes officiated at the single ring ceremony performed before the candlelit altar in the presence of an assemblage of guests.

The bride wore a wedding gown of white satin with a sweetheart neckline, long sleeves pointed at the wrist, and fingertip veil falling from a crown headpiece encrusted with seed pearls. She carried an arm bouquet of white roses and wore a lavalier, a gift from the groom.

Mrs. Charles Pollock, niece of the groom, as matron of honor, wore a blue satin gown fashioned with a net yoke, with a white ruffled bandeau headpiece and white elbow-length gloves. She carried an arm bouquet of pink roses.

Walter Rishel served his brother as best man and ushers were Paul Rishel, another brother, and Jack Pinkerton, of Warren, O., brother-in-law of the groom.

Mrs. Edward F. Brown at the organ played a half-hour recital of music preceding the ceremony. Her selections included "Venetian Love Song," "Clair de Lune," "To a Wild Rose," the Lord's Prayer, and "I Love You Truly," and the bridal chorus from "Lohengrin" and the Mendelssohn recessional.

Following the ceremony there was a reception for 175 guests in the church parlors.

Mr. and Mrs. Rishel left by motor on a trip to an undisclosed destination. Upon their return they will make their home at 1109½ West Washington street.

Mrs. Rishel, a graduate of Union high school, is employed in the tabulating department of Shenango at Union high school and also served 41 months with the U. S. Army, including service in the ETO, is employed at the National Tube Company, Ellwood City.

BOWERS-REAGLE WEDDING SATURDAY

Miss Bee Bowers, daughter of Mrs. Anne Bowers, of Leesburg, and Larry H. Reagle, of New Castle, son of the late Mr. and Mrs. L. H. Reagle, of Sharon, were united in marriage Saturday, August 2, in the rectory of the Beloved Disciple church, Grove City.

Rev. C. Quirk performed the double ring ceremony in the presence of the immediate families.

Attending the couple were Mrs. Dan Radabaugh, sister of the groom, as matron of honor, and Harold Bowers, brother of the bride as best man. The bride wore a street-length dress of rose crepe with powder blue accessories and a corsage of gardenias and white roses. For 'something old' she carried an heirloom handkerchief over 100 years old.

After the ceremony, Mr. and Mrs. Reagle left on a motor trip to an undisclosed destination and on their return will take up residence in their newly furnished apartment at 433 Boyles avenue.

Mrs. Reagle is a graduate of Mercer high school and the Maison Frederick Beauty school. Mr. Reagle, a graduate of Union high school, is employed at the United Engineering & Foundry company. He served five years with the Army Air Force in both the European and Pacific theaters.

VETO AND FILIBUSTER

There is general opinion throughout America that the right of veto in the United Nations has practically hamstrung that organization.

For instance, every time Russia wants to slow up or block a proposal inside the U. N. it has only to threaten a veto or to actually cast one. The Greek incident is a case in point, and it is obvious that nothing can be done in the Balkans without Moscow's approval, and through its veto Moscow will see to it that nothing is done which does not accord with the wishes of the Communists.

As a result of the veto handicap in the international organization there is a nonpartisan movement in Congress which has for its purpose doing away with the right of veto in the U. N. Unfortunately, it is a little difficult to see how this can be brought about.

Russia refused to enter the United Nations pact without reserving the right of veto, and the fact is that we were for the veto ourselves. Now that the veto is a part of the charter, all Russia has to do to keep it there is to veto any proposal which would abolish the veto.

The situation is not unlike that in the United States Senate with regard to the filibuster. From time to time much sentiment is expressed against senseless filibustering, and proposals are suggested for ending the right of filibuster in the Senate. The trouble is that when any move to abolish the filibuster comes to the Senate floor those who favor retaining the filibuster have only to filibuster against the proposal to end the filibuster.

The truth is that the U. N. veto makes little difference so far as practical results are concerned. Were the veto in some way abolished Russia could, and would, refuse to go along on policies she did not approve. Her recalcitrance either would block the proposal or result in her expulsion or resignation from the U. N. Then we would be right back to the old two-bloc system in Europe. But most unbiased observers say that we have that anyhow. Perhaps a showdown is called for.

FIRE DRILLS

Daily reports of costly fires with the resulting loss of life raise the question of the advisability of compulsory fire drills in all public places. It is true that fire extinguishers are prominently placed and exits are well marked, but they fail to train the human mind.

Fire drills have a purpose which cannot be ignored by those participating. They instill in the minds of persons where to go and what to do in case of fire. This knowledge enables the public place to be emptied with a precision and promptness which could not otherwise be the case. In the minds of the guests there will be calm self-assurance, the lack of which has, in the past, been the cause of many horrible disasters.

Probably, many unthinking folk would complain about fire drills, remarking, "The building is fire-proof, isn't it?" Many unwise questioners have been doomed to a tragic death by their carelessness.

In spite of the many years of civilization to which man has been exposed, culture and cool thinking prove to be only a thin veneer during a crisis. Horrible fires in Boston, Chicago and Atlanta in recent years are tragic examples where ordinarily brave persons became temporarily insane and caused the deaths of many of their fellow unfortunates.

Panics have taken place in theatres because of a small fire from which no immediate danger was to be expected. The unwise shouting of the word "Fire" has caused people to be trampled to death under the feet of those who, under ordinary circumstances, would scoff at the idea of their reverting to instincts attributed only to animals.

HOW SAFE IS FLYING?

Passenger deaths on scheduled domestic airlines for the first six months of this year were more than twice the figure for the corresponding period of last year, according to preliminary Civil Aeronautics Board figures. The 1947 rate was 58 killed for each billion passenger miles flown; the 1946 rate was only 23.

These figures reflect the temporary unsettlement of the industry that seems to develop after every war. The sharp increase should soon be whittled down as a result of private and government studies now being made.

It is worth noting that even the "high" figure for 1947 is remarkably small. One person was killed for each 17,000,000 passenger-miles flown. Statistically speaking the average person would have had to fly the equivalent of 680 times around the equator before being killed.

Flying can and should be made safer. The public has a right to feel that both the government and the airlines have become a bit lax in matters relating to air safety. Nevertheless, flying on scheduled domestic airlines can hardly be called a particularly dangerous adventure.

Maybe we are old-fashioned, but we think there was better school discipline when the pupils thought the principal had a paddling machine in his private office.

Why should we stop exporting petroleum to the Reds? They are furnishing us a lot of banana oil through the U.N.

Hints On Etiquette

Refreshments at card tables are usually candy and nuts placed on the tables in little dishes and kept replenished throughout the evening. Cold (or hot) beverages may be served between rounds and if smoking is in order cigarettes are placed on each table by the hostess with matches.

Lobby Law Fails To Cover Many

WASHINGTON, Aug. 4.—A great deal has been written about the activity of the swarm of lobbyists who hovered over congress during the session just ended. Veterans on Capitol Hill say that seldom has there been such persistence coupled with such boldness on the part of the pressure boys.

The Reorganization Act adopted a year ago required lobbyists to register with congress, listing the groups they represented and their salaries. To date about 650 lobbyists have complied with the law. What is more, the statute provides a fine of \$5000 or imprisonment for not more than a year, or both, for failing to register.

A year's test has shown, however, that there is a serious defect in this provision. It's a defect, that is, if the law was really meant to put on public record the lobbyists and their connections. Nothing is said in the law about initiating action against lobbyists who fail to register.

20,000 Blanks This is how it has worked out in practice. At least 20,000 applications for registration blanks have come to the senate and the house from those who apparently believed in the first instance that they came under the terms of the law and were required to register. Some unwise asked for up to 50 blanks. So did several large corporations. But the total of registration blanks returned filled out is less than 5 percent of the number originally applied for.

Nearly every day during the past session, someone phoned in to say that they had seen John Doe in the lobby of the House or the Senate or buttonholing a congressman in one of the hotels, and that they knew he was working for this or that interest. Senate and House officials charged with registering the lobbyists were aware that the law was being violated, and probably on a wholesale scale. But they did not know what they could do about it.

Here is an example that ties in with today's headlines. Representatives of the leading Airline Companies lobbied furiously during the past session both for and against the "Chosen Instrument" bill which would provide a single monopoly for U. S. overseas air operation. The activity of these men was fairly well known. They have been frequently (Continued on Page Nine)

DISCUSSING AGES

"Recently, a woman, in the course of conversation on ages, asked me to guess her age. Well, I did—much to my sorrow, for I added a few years to what she swears is her true age. I, of course, hurt her feelings and wonder if there is anything I can do to make up for my mistake."

Answer: Only this: Never, never do it again to anyone. Those passed their youth are, generally speaking, very sensitive about their age. It is an insult, in a great many cases, even to guess it correctly—always safe to make your guess on the sunny, rather than the shady side.

Really, all questions of age should be avoided, except possibly among close friends who don't mind admitting their years. Women are especially sensitive about their age and inclined to prevaricate when cornered. They cling to 29 and rarely get above 39 until they have reached their fiftieth milestone; or more often until they are white-haired and wrinkled.

Regardless of the encouragement you get to guess someone's age, don't take a chance. Hedge around, explaining that you are a very bad judge of ages.

Question: I am going to be married very informally with only the immediate families present. Must I walk up the aisle with my father or may I walk up with the bridegroom and eliminate music?

Answer: Since your wedding will be informal, you may walk up the aisle with the bridegroom; but of course, if you prefer to walk up with your father and have him give you away, you may do so. However you go, things will be carried off more gracefully if you have music.

BRAINS AND HAIR

Doctors tell us that the brain is made up of two parts, the grey matter and the white matter.

The grey matter is the important part. A brain may be large but if it lacks grey matter, the size does not mean much.

It seems to make a lot of difference whether the grey is inside or outside of the skull.

Grey hair does not always mean wisdom. If there is a good supply of grey matter inside the skull, a little on the outside seems to help sometimes.

Youngsters are sometimes taught to respect and venerate grey hair.

If there is plenty of the same color under the ivory, the respect will be better-perhaps.

What's In A Name?

The Parent Problem

By Garry C. Myers, Ph. D.

PARENTS WHO ARE TOO LENTEN

A great many conscientious parents who are over-zealous get that way because they recall a parent from their own who was very harsh with them.

Deluded by the acres of print denouncing strict parents whose children had not learned to love them, some of these young parents have swung to the opposite extreme. What most of these deluded parents overlook is that it hardly was strictness in itself that caused the trouble but the human frailties of these parents and their failure to understand, sympathy and comradeship.

Regrets Leniency A mother who writes of her regret at having been too lenient with her children and reporting how she has been able to regain control of them, has keenly analyzed her earlier misinterpretation of her own father's bad ways. To quote:

"I read your articles religiously and am glad there's one parent instructor who teaches us to be strict. My only regret is that I did not start earlier to follow your methods in teaching my children the meaning of 'No,' as mine are 9, 6, 4, but I need your continual harping on it as I have been one who is quick to answer 'No' and then be convinced I was wrong by the older child arguing his side. Now I'm slower to answer and am improving in discipline of my children. Being inclined to argue myself, we'd have some rounds. I'm not perfect yet, but I've learned to hold my tongue a lot. I do wish to express my appreciation to you for your teaching."

Father Was Strict "My father was very strict, so when he said 'Do' or 'Don't' he never walked the chalk. He never whipped me, that I remember (my mother did though) but I was too afraid of him not to mind. I feared him so I could not even get up courage to talk to him. I suppose my fear of him was because of his strictness, so I wasn't going to have my children fear me that way. But you were the one who woke me up to see that his being strict was not the cause of my fear of Father but the lack of his understanding and loving us. He never played or read to us; never carried on a conversation with us. He could hardly ever manage one with anyone, though he was a great student of books."

From Me To You

By MESEKALL

Had a few moments yesterday . . . in the warmth and all . . . and did a wee bit of reading . . . doing it the easy way we scanned the New August issue of The Readers Digest . . . Now we have liked that magazine for a long time . . . it followed us through the war, thanks to some mighty fine friends here in town . . . and it has been coming to our home for a long, long time. However this month's issue seems to have really hit the spot more than usual.

In fact so much that we earnestly recommend to you all that you read the August issue from cover to cover . . . Especially two articles written by two different type columnists . . . both from New York . . . concerning the Commies. One of the writers you will all no doubt recognize . . . Billy Rose . . . the ideas these articles get across are something to think about.

And be sure to read the article about "Disease On A Silver Platter" . . . it's about the cleanliness of kitchens . . . from the soda fountain and hot dog stand to the finest restaurants in the land . . . how cities and towns are taking steps to see that each place that serves food has a clean germ-free kitchen . . . It's something serious to think about.

And there are other items too numerous to mention that you should find interesting . . . articles about things that we could well afford to adopt for use right here in New Castle.

In a couple of weeks there is going to be a great horse show down in Wampum . . . a local organization called the Kiwanis . . . know them . . . is sponsoring the affair. From the word that comes from the horses who are going to be there . . . it will be the greatest show so far this season. The horses say themselves that they are really going to strut their stuff and they would like to have a big crowd around to watch 'em. We assured them that a great crowd of great people would be there . . . right . . . Right.

Bible Thought

I know that, whatever God doeth it shall be for ever; nothing can be put to it: nor anything taken from it: and God doeth it that men should fear before him. —Ecclesiastes 3:14.

Looking At Life

By Erich Brandeis

It is my misfortune to have to commute between my Connecticut home and my office in New York on the New York, New Haven and Hartford Railroad.

All commuting is monotonous, but on the New Haven Railroad it is an ordeal.

We used to have air-cooled cars, but since they raised the fares they have taken off our trains and put them on the summer trains to Cape Cod and the Berkshires, and we have to ride in coaches so old, so dirty, so decrepit that they beggar description.

So we commuters sit on these trains every morning and every evening, perspiring and dirty, and we complain to one another about the terrible service and about the shabby deal we are getting from the railroad, which charges us \$21.20 a month for our commutation tickets with another increase in the offing.

We kick, and we grumble and complain—and we keep on perspiring and getting dirtier and dirtier. But nothing happens.

A few people have tried to form committees and to make a concerted effort for better service.

So far the would-be organizers haven't been able to get a baker's dozen together to do something about the disgrace.

And the railroad, knowing full well that it can get by with it, continues to use its worst cars, to be late almost every day, and to maintain the original "the public be damned policy" that was once the policy of all railroads.

Mind you, I am not telling you all this because I want to blast the New Haven Railroad.

In one way I don't blame it for getting by with as little as possible in the way of service. That is human nature, and even railroad people are said to be human.

I am telling all this to you merely as an example of human inertia, and as one of the reasons why so many things that are wrong won't be righted until the American motto "E Pluribus Unum"—freely translated, meaning, "In Union Is Strength"—is more than just an inscription on our coat of arms.

Why do you think the unions have become so strong? E Pluribus Unum!

Why is communism making such inroads in our country? E Pluribus Unum!

Why did we win the last war and the war before that and all the wars we have ever fought? E Pluribus Unum!

There is another saying of which I want to remind you: "United we stand; divided we fall."

It is very strange that it takes desperate situations and imminent danger to unite us, but that, in what at least seem to be ordinary times, we are too darn lazy to work together and fight together and get things done together.

Do you want your taxes reduced? E Pluribus Unum!

Do you want Russia to behave? E Pluribus Unum!

Do you want lower prices, more homes, reduced rents, higher production? E Pluribus Unum!

Maybe we pay so little attention to "United we stand; divided we fall" because it's too much effort to stand and much more comfortable to lie down.

The World and the Mud Puddles

THE AMBITION OF "SON JAMES"

When "Son James" gave up a twenty-five thousand dollar job as a figure-head in Harold Lickes' artists' professions-sciences, political front, he was rewarded with the chairmanship of the California State Democratic Committee. With great acclaim the left-wingers launched James on a political career whose ultimate goal was to be election as United States Senator, instead of leading his party to triumph. His sponsors fondly expected, James led the New Dealers to the licking of their life in the state election, only to have the dose repeated in the congressional contests. Jimmy developed a decided flair for publicity; but most of it turned out to be the wrong kind.

Now it seems that the Roosevelt regime in California is suffering from what might be called horrendous hiatus. Instead of inspiring harmony in the ranks, Son James appears to have developed a large case split right down the middle. A case split right down the middle again, it appears, with Son James quoting himself in the prints in support of the "Truman Doctrine."

Speakers Run-Out The reaction to this outburst is evident in the run-out of the two star speakers for the Jackson Day "harmony" dinner (at One Hundred Dollars a plate) in Los Angeles.

The executive director of the Democratic National Committee, Gael Sullivan, flew out from Washington for the affair, paid a brief visit to Ed Pauley, then flew back to Washington leaving only regrets. The other oratorical star, Secretary of the Treasury Snyder, suddenly discovered that the press of business in (Continued on Page Nine)

Nutrition, Economics Bureau Gets Green Flag But No Coin Budget Slash of 3 Billion Only Half of Congress Goal Power Play Becomes Boomerang at Washington

Special to Central Press

WASHINGTON, Aug. 4.—Some nice motherly ladies got squeezed—financially, that is—as Congress cleared its legislative decks and prepared to sail out of town.

It all began when the ladies were up before a House committee on appropriations to ask, please could they have \$38,000 more this year than last? Granted, said the august gentlemen.

The ladies run the Agriculture department's bureau of human nutrition and home economics. And who were these lawmakers to shorthedge economy? Or, for that matter, nutrition?

They bowed from the waist, and laid compliments at the ladies' feet:

"The committee has allowed," they said in part, "the full amount for improvement of living conditions in the farmer's home where the nation's greatest crop—that of human beings—is produced. Many results of research by this bureau redound to the benefit of homes in the city as well as on the farm."

The ladies left Capitol Hill, all aglow, to report their conquest to colleagues in the Agriculture department.

The gallant gentlemen, however, were forgetful. In joint conference later with a Senate group, they didn't peep when not only the \$38,000 increase was chopped off—but \$207,000 besides!

Beg pardon, ladies.

BUDGET CUT—Speaking of appropriations, it appears that budget cuts will total about three billion—approximately half the economy goal set by the House and some two-thirds of the Senate's more modest target. Federal things will be heavy, for a large part of the cuts are in payroll funds. The total, however, will be only about a quarter of the million disbursements promised by "Stout" John Taber (R), New York, chief high executioner.

JOHN L. KICKS ONE—David Dubinsky, head of the AFL Ladies' Garment Workers and friend of John L. Lewis, gets credit for the prize remark about Lewis' sweeping victory over the soft coal operators.

In Washington for an AFL confab attended by Lewis, Dubinsky made this laughing comment on the munificent new mine wage contract: "John missed a bet. He should have gotten his fine back from the operators."

Dubinsky's reference was to the \$710,000 fine which Lewis and the UMW paid last spring for contempt of court in the November, 1946, coal walkout.

SULLIVAN SAYS "NO"—One of Washington's latest political power plays turned out to be a boomerang.

The maneuvers began when Dave Davidson, Agriculture department official, heard a rumor Secretary Clinton Anderson might make him undersecretary in place of popular Ed Dodd.

Davidson then went to Capitol Hill to secure the support of congressmen from California, his home state.

However, the move backfired when one of the lawmakers told Gail Sullivan, Democratic party chieftain, that Davidson was registered as a Republican in California.

"Too many of those fellows around here already!" exploded Sullivan, and snapped the lid shut on Davidson.

In View Of The News

By J. C. Ostreicher, INS Foreign Director

One of the most fantastic chapters in the history of wartime aviation—directly responsible for the collapse and eventual surrender of Hermann Wilhelm Goering—was recalled today by presence in the United States of famed Royal Aircraft Squadron 617.

Pilots, navigators and radio men of this squadron are justly proud of their leading role in one of the most effective single bombing operations of the Second World War. This was the blasting of the Mohne and Eder dams, carried out against incredible difficulties.

The Lincoln bomber called Revolutionary type aerial mines which were dropped squarely on the chief water-power supply units of the Ruhr Valley.

Gave Second Pasting They flew down to Italy, refueled and re-armed, and got back to give the dams another pasting while the Germans still were wondering how the first attack could have taken place at all.

But R.A.F. Squadron 617 is happier still when oldsters with retentive memories recall how its members were dubbed the "Spook Boys" for mounting perhaps the most stupendous aerial hoax of all time on the morning of June 8, 1944, when the Allied armies under Gen. Dwight D. Eisenhower swept across the English channel to invade the northern coast of France.

The Allied armies were not lacking in air power or air cover. On the contrary. They had plenty.

Went To Work Yet Gen. Ike had decreed that not a single life or limb that could be spared was to be lost. And Squadron 617, ever anxious to show up the German Luftwaffe and Goering in particular as mental boobies, went to work.

For three hours and more their comparative handful of planes staged a shuttle operation across the channel which was a masterpiece of ingenuity. They took innumerable advantage of all the marvels of modern science, particularly radar.

Forrestal Says Merger Of Forces Historical Step

Defense Secretary Hails
Unification As One Of
Greatest Moves In
History

By LEE VAN ATTA
(N. S. Staff Correspondent)

WASHINGTON, Aug. 4.—(INS)—Secretary of Defense Forrestal Monday hailed unification of the armed services as "the most decisive and definitive step in the formulation of a national military policy since the formation of the republic."

Pledging that his new security headquarters would strive for efficiency and economy, Forrestal reiterated his belief that congress had provided him with a thoroughly workable law.

Forrestal, who was named defense secretary Saturday, told a news conference that "we have the blueprint and the charter but we must be manned by people."

He reiterated his confidence that complete cooperation would be forthcoming from the army, navy and air forces chiefs.

The dapper, 55-year-old New Yorker admitted that he had planned a return to private life before President Truman named him to the new cabinet post.

He added, however, that he had been asked to "do this job" by the president and "I don't refuse."

Forrestal, who has been secretary of the navy since 1944, promised an efficient, compact administration of the defense hierarchy.

He said: "There will be savings, but I cannot yet specify them. There will be no immediate, miraculous results. But in the long run it will be efficient and economical and we will get the most out of our defense money."

More Is Evolution

The secretary carefully emphasized: "This is an evolution, not a revolution. Unification and integration of existing agencies will be our goal."

He indicated that while initial de-

cisions are being formulated by his office, direct action awaits consultation with President Truman upon the chief executive's return from Mother Truman's funeral in Missouri.

Forrestal also is expected to take the oath of office at that time. He said he envisioned his office as primarily a cooperative unit acting more in an integrating and overall supervisory role, rather than a complex large-staffed administrative body.

He declared, however, that a primary, immediate item on his agenda is the beginning of budget discussions for the fiscal year 1949. Asked by newsmen what is his most essential first action, Forrestal replied: "Get people for the job."

First operating funds for the new defense secretary will be provided by money borrowed from both the army and the navy. Forrestal quipped: "For the time being at least, we are living on credit."

The new secretary emphasized that he would "do as little dislocation as possible" and would concern himself principally with global matters.

Capital Boxer Held Under Bail In Street Brawl

HARRISBURG, Aug. 4.—(INS)—Rocco (Rocky) Luciano, 25, Harrisburg boxer, was held under \$1000 bail today on a charge of aggravated assault and battery growing out of a Saturday night street corner brawl.

Police Chief Oscar Blough said Luciano had kayaked 23-year-old Jack Renninger, of Harrisburg. The Harrisburg hospital reported Renninger suffered a lacerated chin and possible rib fractures.

A two-month-old grudge between the boxers broke out Saturday night in front of a midtown Harrisburg restaurant when Renninger reportedly heaved a cup at a third person. The cup missed its target and struck Luciano, who was seated in a parked automobile, according to police.

Luciano, who had stopped the fight between Renninger and another man two months earlier, went to the hospital for treatment and then returned to the scene of the initial brush.

When told Renninger had boarded a bus for home, Luciano followed the bus and engaged Renninger in a fight when he alighted in a residential section of the city, police reported. Luciano was released until summoned by police.

August, September May Bring Seasonal Ravages Of Polio

By SAMUEL GAMBURG
(U.S.S. Staff Correspondent)

PHILADELPHIA, Aug. 4.—(INS)—August and September, traditionally months of holidays and return to schools, instead will bring death or twisted limbs to hundreds of Pennsylvanians.

If the commonwealth's yearly average holds true, some 500 will be struck down by infantile paralysis. At least 50 of these will die.

Health officials long ago gave up attempts to forecast the severity of the yearly surge, but fairly accurate reports submitted by counties to the state department of health indicate the unrelenting persistence of polio.

In the last decade, 1944 led in Pennsylvania with a record 1,456 cases. Of these, 111 were fatalities. The disease retreated in 1945 to 783 with only 53 deaths. Last year 341 outbreaks scored a death toll of only 30.

At the 1947 half-way mark, half a hundred cases have been reported—but no deaths, so far.

Not Infant Disease

Polio is not an infant's disease, but occurs more often in children because they have had less chance to develop immunity. Housewives have the best chance to escape polio because they have less contact with groups.

Dr. Rufus S. Reeves, Philadelphia director of public health, declared that sound judgment and a health attitude toward polio are important in preventing mass hysteria.

First precaution, he lists, is to avoid sudden cold baths which may shock the system. Children should be kept away from ill persons and out of polluted water which may carry filterable virus—believed to cause infantile paralysis.

Additional precautions listed by Dr. Reeves are avoiding fatigue and strenuous exercise, screening houses against flies and mosquitoes, hand washing before eating, and avoiding common drinking utensils.

While urging that body resistance be built up by sufficient food intake, Dr. Reeves warns that the

nourishment should be properly adjusted to summer heat.

Should Heed Warning

The common warning signals flashed by polio should be heeded instantly. These include cold symptoms, sore throat, vomiting, diarrhea, and excessive nervousness.

Treatment of polio is standard throughout the state. These include heat, physio-therapy, and sometimes drugs.

Dr. Alfred C. Labocetta, Philadelphia Municipal hospital medical director, declared that a modified version of the Sister Kenny treatment is popular in Pennsylvania. This utilizes heat and muscle re-education.

Dr. Labocetta pointed out that in time of polio epidemics a lack of trained personnel, especially nurses, is one of the greatest problems. Iron lung patients require individual nurses, while other polio cases require two nurses to five cases.

Evaluations are still being made of the now-famous "nerve crushing" operations being conducted at St. Luke's and Children's Medical Center in Philadelphia under Dr. Donald T. Jones, the chief orthopedic surgeon.

Pound Muscles

The operation, known as neuro-tripsy, consists of pounding the wasted muscles with a hammer-like instrument. In many cases nerve fibers are regenerated and reach out to strengthen powerless muscle tissue.

The operation is followed by contrast baths and physical therapy. The patient makes periodic visits for muscle re-education and special exercise either at St. Luke's or in his own community.

Since June 1, 1944, some 250 "nerve-crushing" operations have been performed at St. Luke's, one of only two hospitals in the nation where such operations are undertaken.

Of this number, 10 per cent reported remarkable improvement; 65 per cent, slight to good improvement and the rest, almost without exception, reported "subjective improvement."

A polio victim is eligible for the "nerve crushing" operation only after all other forms of treatment fail. This is usually a minimum of 12 to 15 months after contraction.

St. Luke's officials stress that the hospital makes no promises at all before undertaking the operation, but they are heartened by the improvement in many long suffering victims.

For the thousands for whom no cure is possible, such agencies as the National Foundation for Infantile Paralysis lend aid. Since 1916 the agency has provided school transportation, free orthopedic treatment, financial assistance, and employment opportunities.

Ski Troops Hunt Plane Survivors On Andes Slopes

SANTIAGO, Chile, Aug. 4.—(INS)—Ski troops guided by search planes explored the rugged Andes mountain slopes today in their hunt for a British transport plane missing with eleven aboard since Saturday.

Poor visibility impeded the operation that has been pushed with increasing intensity since the British-South American Airways plane "Stardust" disappeared on a flight from Buenos Aires to Santiago, Chile.

(A Santiago dispatch to the London Daily Express said that peasants near Santa Barbara, Chile, reported seeing the four-motored craft lying in the snow on a mountain slope.)

The converted Lancaster bomber was last seen Saturday high over the great statue of Christ the Redeemer marking the Argentine-Chile frontier.

GEN. WEDEMAYER CONTINUES TOUR

PEIPING, Aug. 4.—(INS)—Lt. Gen. Albert C. Wedemeyer's American fact-finding mission left Peiping today for Tientsin to continue investigation of affairs in China and Korea.

The mission also plans to go to Tsingtao where a U. S. naval base is located and to Mukden, principal Manchurian city, returning to Peiping toward the end of the week.

The mission flew to Tientsin after spending three days in Peiping where various Chinese and American officials were received in conferences.

COAL MINER SUICIDES

CONNELLVILLE, Pa., Aug. 4.—(INS)—The coroner's office today termed the death of Lloyd Strickler, Star Junction coal miner whose body was found in a car parked in Bethel cemetery near Dawson, Pa., a suicide.

Deputy Coroner Frank B. Galley said Strickler had shot himself through the heart with a shotgun.

A small satchel containing valuable papers, including a deed to a cemetery lot, was found in the car.

CONNELLVILLE Miner To Face Murder Charge

CONNELLVILLE, Pa., Aug. 4.—(INS)—Assistant County Detective Lawrence A. Haggerty of Uniontown said a murder charge probably would be filed today against Paul H. Johnson, 38, Connellville coal miner, in the death Sunday of Lester P. Miller, 34, Connellville lumberman.

Johnson, Haggerty said, shot Miller following arguments between the two over a fight between Miller's son, Gerald, 11, and Tommy Johnson, 8.

Haggerty said Miller went to the Johnson home during Johnson's absence and chased Mrs. Johnson and her children.

He returned when Johnson was at home, and the latter met him at the door with a shotgun, Johnson, Haggerty said, warned Miller to leave, and fired after Miller told him: "Go ahead and shoot, you . . . before I kill you."

At least ten persons, including three of Miller's children, witnessed the shooting.

Mrs. Johnson had filed an information against Miller shortly before the shooting, charging him with breaking and entering, disorderly conduct, assault and battery and surety of the peace as a result of his first visit to her home.

AUTO CRASH FATAL

PITTSBURGH, Aug. 4.—(INS)—The Allegheny county coroner reported today that William J. Loersch, 34, of Ingomar, was killed Sunday when his auto struck a tree in Franklin township.

More Machines On State Farms

HARRISBURG—Increased mechanization of Pennsylvania farms to assist in overcoming the high cost and shortage of skilled farm labor was reported today by Miles Horst, state secretary of agriculture.

As an outstanding example, he cited recent federal-state surveys that disclosed a substantial advance in the use of combination harvesting and threshing machines that operate in ripened fields of small grains, compared with previous use of such machines which are known as "combines."

Similarly, there is increased use of combines to harvest and thresh other small grains in a single operation. In 1938 only four per cent of the oats crop in Pennsylvania was harvested with combines. In 1945 this method accounted for the harvesting of 30 per cent. According to available records, combines in 1945 were used on 40 per cent of the Pennsylvania barley acreage, 30 per cent of the rye and 29 per cent of the buckwheat.

Probing Blast Killing Three Illinois Boys

DANVILLE, Ill., Aug. 4.—(INS)—Authorities today were investigating the cause of an explosion and fire in a home-made clubhouse which killed three youths and burned a fourth critically.

The dead were John Hiner, 17, Howard Phelps, 16, and Harry L. Culp, 18. All were residents of nearby Tilton and students of Danville High school.

The lone survivor was Paul Phelps, 19, Howard's brother, who was in serious condition at St. Elizabeth's hospital in Danville.

Only the concrete floor of the structure remained following the blast and fire, Coroner John B. Tole, who took charge of the investigation, said the explosion may have been due to either gasoline or dynamite. A can which might have contained gasoline was found in the ruins.

WOMAN IS SUICIDE

PITTSBURGH, Aug. 4.—(INS)—Police today reported that Mrs. Edna L. Wallace, 62, shot and fatally wounded herself yesterday in the bedroom of her home. Her husband, John, 77, told officers that Mrs. Wallace had been in ill health for a year.

Fear Crop Damage From Heat Wave

Nation Gripped By Heat Wave, Farmers, Industrial Workers Suffer

(By International News Service)

A heat wave gripped most of the nation today, damaging crops, causing several deaths and slowing the average citizen to a dragging walk.

The heat wave spread from the Rocky mountains eastward to the Appalachian mountains, with the exception of Michigan, northern Wisconsin and Michigan and sections near the Gulf coast.

Other areas on the fringes of the heat wave suffered from hot weather, but not as severely as the Midwest and Southwest.

A high of 92 degrees—a season's record—was expected today in Pittsburgh. The rest of Pennsylvania, however, anticipated lower readings, with humid weather and scattered thunderstorms later today.

Last Several Days

Forecaster P. P. Sutton in Chicago said the hot spell would last several days, and that temperatures near or above 100 degrees were on tap for today and tomorrow.

Sutton said the heat wave developed over the southern great plains and that no air movement was forthcoming to offset the heat.

Possible damage to the Iowa corn crop was feared as record highs were listed. Vine crops, gardens and pasture land already is parched. The highest temperature Sunday was 105 at Bloomfield. A new record for Des Moines was reported when the mercury soared to 102 degrees.

In Detroit, 300 employees in the Core Room of the main Dodge plant stopped work today because of the heat. A 94 degree reading was forecast for today in the automotive city.

On the Pacific Coast, Los Angeles anticipated its tenth straight day of 90 degree or above weather. More hordes of persons were expected to throng to the beaches in search of relief from the oppressive heat.

Cool New England

Across the nation, the New England area reported comparatively cool weather. The temperatures ranged from 63 to 72 degrees. It was a welcome break from the three-weeks of hot, humid weather.

New York City and the surrounding area reported warm weather, but relief in the form of thunderstorms were expected.

The heat wave in the southeast continued, with no relief in sight. Temperatures climbed to 100 degrees and over in northern Alabama, in Tennessee, Mississippi and Georgia.

South Carolina, which missed the scorcher Sunday, will get 100 degree heat today.

Farmers throughout the agricultural south turned worried eyes to the skies in search of much-needed rains.

Unionists Urge War Continues

LONDON, Aug. 4.—(INS)—Reuters reported today that Indonesian Republican trade unionists called for continuation of the struggle against the Dutch, despite the "cease fire" order which becomes effective at midnight.

In a dispatch from Batavia, the trade unionists were quoted as saying:

"The duty of members is to continue the struggle until the Dutch are driven from Indonesia."

The population was urged to sabotage and disrupt communications, and to provide the Republican forces with spears, knives and other weapons.

YOUNG BICYCLIST SUFFERS INJURY

Donald Marsh, aged 10 years, of 910 Emory street, is undergoing treatment in the Jameson Memorial hospital for a slight concussion of the brain and contusions of the elbow, received late Saturday morning when his bicycle was involved in a collision with an automobile driven by Ed Schrantz of 911 Porter street on West State street.

Find Body Of Man Missing Four Days

Missing for four days, the body of Mike Truck, thought to be about 58 years of age was found at noon today by Steve Zylkne of 6 East Long avenue. The body was found back of an oil bulk plant on Gardner avenue.

Deputy Coroner Charles E. Allen answered the call and had the body taken to the county home. Nothing had been learned at press time of the man's family or his background. He lived alone in a small shack on Gardner avenue.

Social Security 'Education' Week Success In City

Value of the city's "Social Security Week" observance was praised today by Myron Milbourn, tricity manager, who said that response to the office's educational efforts was gratifying.

Mr. Milbourn said that persons showed a keen interest in the mechanisms of the government agency and were especially inquisitive about the computation of benefit totals when they become eligible to receive them.

"Despite the summer 'goldrums' and the great amount of people on vacations, inquiries into Social Security during the past week were brisk," the manager stated. "We of the local office hope we have to some measure helped to make the residents of this area 'Social Security' conscious and aided them to understand just what we can do for them."

Information booths were maintained at Strouss-Hirshberg's store and the New Castle store. Many inquiries were also answered at the office rooms in the Johnson building, Neshannock avenue.

Waldron R. Curley, will be the speaker at the Wolves dinner-meeting Tuesday evening at The Castle-ton, at 6:30 p. m. His topic will be "Universal Military Training."

FIRST POLIO DEATH

LANCASTER, Pa., Aug. 4.—(INS)—Lancaster recorded its first polio fatality of 1947 with the death of Peter Becker, 22, of Altoona, the City Health Department reported.

Health authorities said Becker was stricken while visiting at the home of a friend. He was admitted to the Lancaster General Hospital last Wednesday.

In 1946, daily doses of the new drug, benadryl, were found to relieve sufferers of hay fever and hives.

Turn In Used Cooking Fats!

asks MARY MARGARET MCBRIDE, Famous Radio Commentator

One of the finest jobs ever done by American housewives has been in saving used fats! Since 1942, over 800 million pounds have been salvaged. But, as Secretary of Commerce W. A. Harriman points out, the job still isn't over. "Not only the United States, but the whole world still lacks adequate supplies of fats and oils. And we in America are particularly short of industrial fats. These industrial fats, or their products, are needed to make many things we use every day. The used fats you turn in will help tide us over until supplies are normal."

and his wife during the war. A breakdown of the \$5,000 showed that \$1,500 of it was spent during the crucial weekend of Aug. 20-23, 1943.

That was the weekend young Roosevelt, then an army colonel, reported that Hughes' P-11 plywood plane was the only one "suitable" for photo-reconnaissance work.

His recommendation resulted in the overruling of Air Corps aeronautical experts and an order for 100 Hughes planes. The order was trimmed later, through contract termination, to twenty two million dollars, for which three planes were to be delivered.

Check Records

Committee investigators were also making a last minute check of army records to determine whether Elliott drew army travel and subsistence pay while being wine, dined, and sometimes housed, at the expense of Hughes.

Appearing on today's double bill with Roosevelt is Meyer, who is in the midst of telling the subcommittee handling the hearing all about "my war."

Adult Chapter Of United Federalists To Meet Tuesday

Will Show Film 'One World One Home' At Organization Meeting At Y.W.C.A.

United World Federalists will have an organization meeting Tuesday evening, August 5 at the Y. W. C. A. at 8 o'clock. MacClean W. McClean, state director, will show a film on the atomic bomb entitled "One World One Home."

Plans were made to organize an adult group of United World Federalists by the student division which has been organized for the past year in the local high school. Temporary officers were elected with Herbert S. Kirk, as chairman and Miss Frances M. Haydon as secretary-treasurer. Rev. Robert S. Galbreath will be chairman of the advisory board.

Anyone interested in World Federalism are welcome to attend. The group is making plans to bring Norman Cousins, editor of the Saturday Review of Literature, at a later date.

Several Injured In Auto Wrecks Over Week End

Saturday and Sunday were featured by automobile wrecks in Lawrence county, in which several persons were injured and received treatment either at hospitals or at their homes.

At five p. m. Saturday, eight miles from the city on route 224, Charles Riggins, Hillsville, lost control of his car while going over a railroad crossing. It turned over. James Polk, 17, and John Harrison, 21, both of Hillsville, were injured and taken for treatment to a Youngstown hospital.

At 1:40 p. m. Saturday John E. Mulroy, 20, Wampum R. D. 2, attempted to pass a truck parked by Zigmond Renna, 40, of Koppel, south of Wampum, and hit Renna's truck. No one was injured.

At 3 p. m. Sunday Michael Masullo, 22, of 20 Crawford street, Pittsburgh, struck a tree backing out on route 19, near Harlansburg. No one was hurt.

At 6:15 p. m. Saturday Kenneth White, 16, of 414 East Leasure avenue, and J. M. Craven, 67, of Enon Valley R. D. 1, driving cars in opposite directions, crashed on the hill side of Harlansburg. Mr. and Mrs. Craven sustained head cuts and bruises and were given attention by a doctor in their home.

Mary Sanders, 45, of 2158 Center avenue, Pittsburgh, received treatment at 6:30 p. m. Saturday in the Jameson Memorial hospital for several fractured ribs, abrasions and contusions sustained in an auto wreck.

Doris Shelley, 27, of 29 Charles street, received treatment in the same hospital at 6:05 p. m. Saturday for contusions and abrasions of her right forearm. She was riding in an auto that skidded on the slippery pavement of the Harlansburg road.

Highway Worker Suffers Injury

John Gardner, aged 24 years, of 311 Fern street, who was decorated by the U. S. navy for outstanding heroism in the recent war, suffered a fracture of the large bone of the right leg in an accident on the new Youngstown road Saturday.

John was working behind a cement spreader, which in backing up, struck him, fracturing the leg at the ankle. He was employed by the S. J. Groves company. Mr. Gardner is undergoing treatment in the Jameson Memorial hospital.

John J. Colgan Takes Position With Alcoa

Announcement has been made by Harry C. Slagle, works manager of the new die-casting plant of the Aluminum Company of America, in Chicago, Ill., that John J. Colgan of Summer avenue, this city, has accepted the position as die-room superintendent for that plant.

Mr. Colgan will resume his new duties on September 1, of this year. For the past year, he has been associated with the Shenango Pottery Company of this city.

Veteran Police Officer Aiding 'Bad' Kid Crowd

Alignment Of Police Force Member
On Court's Side Cuts
Delinquency

PITTSBURGH, Aug. 4.—(INS)—Juvenile court authorities in Pittsburgh have solved one of their knottiest problems—that of police cooperation.

And as a result, the so-called "bad" kids are getting a better break. They found a solution to the problem by the simple expedient of hiring a cop—one who would understand other policemen.

He is James F. McKnight, a veteran policeman. His title is "Police Investigator of Child Delinquency."

Now, with one of their own kind on the "inside" close to the workings of the court, police seldom ask the judge to "throw the book" at young offenders.

With McKnight investigating each delinquency case, police are coming around to his recently-acquired point of view that the "parents" should be punished instead of the kids.

Trouble With Parents
The former patrolman explained that 85 per cent of juvenile offenses are caused by "kids' trouble with their parents."

Primarily, it is because the parents just "aren't kind" to their youngsters.

McKnight explained that former non-cooperation among police was caused by their belief that the court was "too lenient" on offenders.

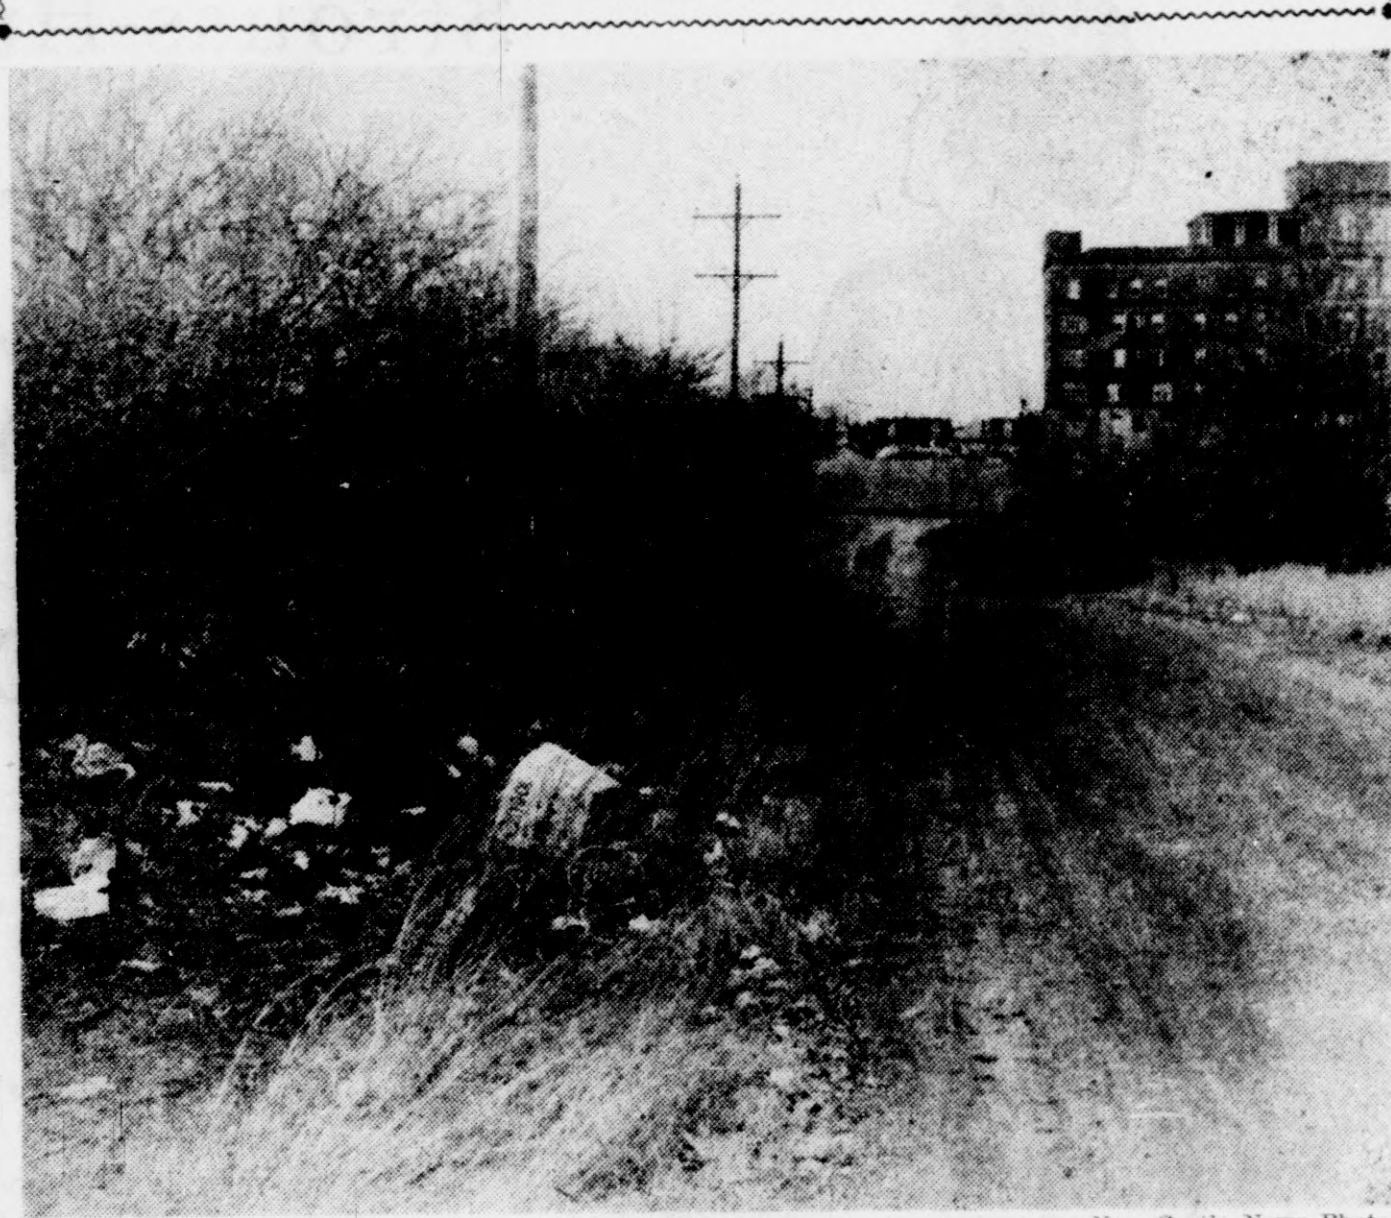

Now, with his experience in investigating juvenile delinquency, McKnight said cooperation is better because he and the arresting officers "talk the same language."

Police More Lenient
Instead of asking for severe punishment of delinquents, the patrolman said other police now are even more lenient than the court.

When McKnight was assigned to the job he threatened to quit the force before he would work with "those social workers." However, he finally agreed to "give it a try" for a month.

That was four years ago. Now, you couldn't drag him away from his job.

Carelessness Or Lack Of Civic Pride?

Jameson Memorial hospital, an imposing structure of brick surrounded by neatly clipped lawns, is only one of a number of New Castle buildings whose beauty and stateliness are marred by just such garbage dumps and strewn trash as pictured above, in the vicinity.

New Castle is a beautiful city; clean, neat, and well-ordered, except for a few hideous spots which spoil the general appearance. Why can't they be cleaned up? With little work and a little more cooperation, these "sordid spots" of the city could become things of civic pride.

Next year thousands of guests will visit New Castle in honor of its sesqui-centennial celebration. There are plenty of interesting and beautiful things in New Castle to show and point out with pride, but there are also several to hide.

What will you tell those visitors next year? What you tell them next year will depend on what you do this year. Take stock of your fair city, and make it little fairer.

Around Hollywood

By JOHN TODD
International News Service Staff Correspondent

HOLLYWOOD, Aug. 4.—(INS)—Just a year ago beautiful Betty Jane Howarth was a photographer's model in Pittsburgh, Pa., wishing she were a movie actress in Hollywood.

Today Betty Jane is getting ready to go into her sixth picture at M-G-M, so happy she doesn't even notice the worst heat wave in Hollywood's history.

Her's is one of the stories which couldn't happen, but did. After the death of her father a little over a year ago, Betty Jane and her sister, Gertrude, prevailed on their mother to pull up stakes and move to California.

Gertrude got closer to Hollywood than did Betty Jane in the beginning. She became secretary to a pair of writers out at Republic.

Betty Jane knew very little about bookkeeping, but she got a job as a bookkeeper in a camera shop in Hollywood. You'd figure that that was about as far away from being an actress as you could get in Hollywood, wouldn't you?

But, Betty Jane is very easy on

the eyes. She has brown hair so dark it almost looks black. She has blue eyes and a cupid's bow mouth.

One day Red Skelton walked into the shop to look at a camera but he looked at Betty Jane instead.

His first remark was as old as Hollywood. He said:

"Young lady, you should be in pictures."

Betty Jane was afraid he was only joshing at first, until Red and Mrs. Skelton invited her up to the house for dinner a few nights later.

A week after that she was under contract to M-G-M. She's had parts in "Cass Timberlane," "On An Island With You," "The Kissing Bandit," "Good News" and "The Pirate."

In a few days she's going into "Luxury Liner."

The parts, of course, have been small, but Betty Jane is studying drama, singing and dancing in the hope that her big break will come before too long.

It is estimated that 30,000,000 persons in Russia use bicycles.

Allegheny College Staff At New High

Twelve Faculty Appointees Named
At Allegheny College; Total
Boosted To 72

MEADVILLE, Aug. 4.—To meet the requirements of Allegheny college's largest enrollment in history—1100 students—the college will boost its teaching staff to a new high of 72 members this fall.

Last year when the enrollment passed the 1000 mark, the faculty reached the record number of 65. As of August 1 twelve new faculty members have been added to the teaching roster to fill both new and vacant positions and the college plans to add four others.

Appointees who have been named to begin duties when the first semester begins September 30 include a full professor, two assistant professors, an assistant dean of men and eight instructors.

Dr. Richard L. Brown, for the past five years a member of the staff at Massachusetts Institute of Technology, Cambridge, Mass., joins the Allegheny faculty as professor of physics. Dr. Brown is a graduate of Amherst College (B.A.) and holds advanced degrees from Wesleyan University (M.A., '36) and M.I.T. (Ph.D., '42). He was engaged in research in acoustics during the war.

Appointed assistant professor of geology and geography is William H. Parsons, a graduate of Union college (A.B., '36) with a degree of master of science ('38) from Union university. Mr. Parsons has taught at Union college and at Saugerties (N.Y.) High school.

Named as assistant professor of psychology is John T. Bair (B.S., Ohio State University, '41; M.A., University of Tennessee, '42), who has been a member of the staffs at Ohio State and Tennessee.

John S. Beard (B.A., Central College, '40; B.D., Duke University, '44; M.A., University of Chicago, '46) joins the staff as assistant to the dean of men, coming to Allegheny from an assignment as assistant to the dean of University college, Chicago.

Among the disease that may be prevalent this month are mildew on roses, dahlias, lilacs and phlox, and black spot on roses. Dust with sulphur and pick off all rose leaves showing black spots. Drop the infected leaves in a paper bag and burn them.

Garden Notes

Best drainage for wet soils is a line of agricultural tile, which may empty into a roadside ditch or into a dry well, or any other convenient place. For every hundred feet of length the tile should drop from six to 12 inches.

Old rhubarb plants are benefited by a heavy dressing of manure in the late fall. If manure is not available, use a commercial fertilizer.

Use of spading fork, a spike-tamp or a sharp-pronged three-tined cultivator to scratch up all bare spots in your lawn before you start re-seeding and repair late this month.

Insects in the vegetable garden

now will include plant lice or aphids on cucumber, squash and melons. Not only do these aphids injure plants by feeding on them, but they help carry wilt disease from one plant to another. Control them with pyrethrum or nicotine sprays.

It is not difficult to detect a stringy beet from one that is palatable and tender. When a beet has light green, glossy heart leaves, it is still growing and will be excellent for table use.

Flying squirrels comprise two groups, the smaller species of the eastern United States and parts of Mexico; and a large species which occupies timbered sections of western United States and Canada. One form ranges into northern New England and border states along the Great Lakes.

Mosasaurs were huge fossil reptiles or "sea serpents." They were aquatic animals furnished with paddles and are estimated to have attained a length of as much as 75 feet.

The Great Hare, god of the Algonquin Indian tribes, was first mentioned in literature by William Strachey, in his "History of Travels into Virginia," written in 1618, but first printed in 1849.

PRUNING IMPROVES WISTERIA FLOWERS

In pruning wisterias during the summer to improve their flowering habits, cut away most of each thin young shoot, leaving the main stem intact.

Peonies need a low-nitrogen, high-potash fertilizer, and sufficient water. Seed pods should be removed. Draining or filling holes in the trunks eliminates breeding places for "punks" and mosquitoes.

Prune spring-flowering deciduous shrubs by removing about one-third of the older wood to ground level. Scale or borer infested lilac branches should be cut out and destroyed.

FEED COWS WELL WHILE ON PASTURE

Every dairyman who wants to produce milk this fall must feed well this summer. If milk production drops, it cannot be increased until the cows freshen again. Summer temperatures always cause a reduction in the growth of pasture grasses. Unless cows are turned into supplemental pasture or are fed hay or silage, their production will suffer. High producers also need some grain.

Heifers on pasture should receive additional feed when the pasture is short. If they are large for their age, plenty of hay will be satisfactory; otherwise, some grain should be fed. When heifers are underweight at freshening time, they often remain stunted in growth and cannot become profitable cows.

Child's Murder Remains Mystery

Marcus Hook Man's Confession Proves "Dud" In Probe Of Young Girl's Slaying

NORRISTOWN, Pa., Aug. 4. — (INS)—The brutal slaying of five-year-old Carol Ann Thompson last May remained unsolved today as Detective Albert Murphy announced that a "confession" by a Marcus Hook man had turned out to be another dud.

The Montgomery county detective said the subject, 33-year-old John Henry Pay, had failed to identify the spot near North Wales where the youngster's assaulted and strangled body was found.

Pay was arrested last week in McKeesport on charges of attacking another five-year-old girl. He was returned to eastern Pennsylvania after he allegedly told state police he was responsible for Carol Ann's death.

Murphy said Pay led them to Upland and took them to a clearing in a woods. He quoted the former shipyard worker as saying: "This is where I murdered the girl."

Upland, however, is in Delaware county—25 miles away from Worcester township in Montgomery county where Carol was slain.

Pay also pointed out a creek where he said he had thrown Carol's clothing, Murphy said. When her body was found stuffed in a well, however, it was clad in a coat, and the rest of her clothing was found beside the well.

Murphy said Pay insisted he had slain a child near Upland, but police records failed to show any reports of missing youngsters who might have been the victim.

Britain To Use Ninety Ships As Bomb Targets

LONDON—The Sunday Times said that Britain planned to sacrifice 90 gunships in bomb experiments off Portsmouth and Loch Striven during 1947-48.

The tests are designed to determine the effects of various types of bombing against individual and massed vessels, the paper reported.

Of the ships listed, 83 were built during the war. Included were the 22,450-ton aircraft carrier Furious, the cruisers Hawkins and Emerald, 10 destroyers, 16 submarines, three sloops, 16 corvettes and a number of smaller craft such as landing barges. Some of the destroyers were launched as late as 1945 and two of the submarines were of the fast ocean-going class intended for the Pacific war.

NO ROOM FOR MAYOR
CORVALLIS, Ore.—(INS)—Corvallis' city hall is so crowded there's not enough room, even for the mayor. Mayor George Peavy finally found office space in the Elks building. But the Elks need more room for lodge members and the mayor will soon find himself on the street again.

SOFT DRINK MACHINE
PITTSBURGH.—(INS)—A "slugging" "jackpot-proof" soft drink vending machine that not only offers cold drinks but also returns the proper change from dimes and quarters will soon be mass produced by Westinghouse corporation.

WASHINGTON CALLING

(Continued from Page Four)

referred to as lobbyists. Yet an examination of the record shows that not one of them is registered with congress as a lobbyist.

Supposedly Covers All

The law says specifically that "any person who shall engage himself for pay or for any consideration for the purpose of attempting to influence the passage or defeat of any legislation . . . shall, before doing anything in furtherance of such object, register with the clerk of the House of Representatives and the secretary of the Senate . . ."

Some of these airline lobbyists have spent most of their time working on congress. Some are executives of their respective corporations and move in and out of Washington. They might claim that lobbying was not their principal activity as specified in the law.

An analysis of the statute in the Yale Law Review expresses the belief, however, that corporation executives would have to register even though lobbying was only one of their duties. And that same view is held by others who have studied the lobby provisions.

The department of justice is just now analyzing the list of lobbyists who have complied with the law. Attorney General Tom Clark will not confirm the report that the inquiry is to be extended to cover those who failed to register.

Question Of Power

There is a question of the power of the attorney general in this instance. The law applies to congress and, under our system of divided powers, the executive branch of the government walks softly where the privileges and prerogatives of the legislative branch are concerned.

A law that anyone can conveniently ignore is far worse than no law at all. As foreign critics like to remind us, we are at the same time the most lawless and the most law-minded people on earth.

When congress comes back, the provision covering lobbyists can be tightened. Means can be provided for enforcing the law. As it stands, it is little more than a well-meaning gesture. Such gestures usually end by making government and the lawmakers look pretty foolish.

**THE PARENT
PROBLEM**
(Continued from Page Four)

This mother has aptly analyzed psychological factors which many child experts have overlooked. It is not strictness in and of itself that can create unhappy parent-child relationships. If all the qualities which most writers and teachers hold up in parents also went with strictness, the best of results could follow. Tempered with abundant love and self-control, strict discipline of the growing child is desirable. Love and restraint need proper balance. Restraint without love is very harmful. Love without restraint commits suicide. Who is the parent who always can be lovely to a child who has no regard for his parental authority?

TEEN-AGE FAN-ATIC
KANSAS CITY, Mo.—(INS)—15-year-old Wanda Eileen Coffey of Kansas City is a girl with a lot of nerve. A man stole a fan from a drug store where she is employed. The girl pursued the thief, snatched the fan from him and returned it to the store. The thief escaped. Wanda got a box of candy from her boss as a reward.

the national capital would also make his attendance impossible. While this is not exactly flattering to Son James, there is one compensation; it left the dinner spotlight exclusively to Eleanor. Whether this gave equal satisfaction to the faithful who forked over their one hundred dollars for the show is something else again. Old Hickory's glorification may be considerably diluted by the absence from the feast of many of the staunchest and most devoted of his disciples.

Meanwhile Son James is uttering more publicity in the form of accusations about "insidious influences" which operated to frighten away the two post-prandial party orators. Somewhere in the background, no doubt, there are fascist meanings at work to discredit the New Deal leadership in the Golden State and thereby fasten the hold of the Reactionaries on the commonwealth. It is a sad situation, indeed, with everybody out of step but Jimmy.

Couple Plans Unified Stand In Yacht Case

SANTA ANA, Cal., Aug. 4.—(INS)—George (Bud) Gollum, 21, and his coed sweetheart, Beulah Louise Overell, 18, will stand together in a unified defense against charges they bludgeoned the girl's parents to death aboard a yacht before blowing up the craft.

Gollum's attorney, S. B. Kaufman, made this announcement as the murder trial entered its 11th week in Santa Ana today. Ending long speculation as to whether the couple would present separate defenses, Kaufman said:

"It will be a single defense. The same witnesses will appear for both Gollum and Miss Overell and Gollum will be one of the witnesses. He definitely will testify."

The youthful pair is charged with beating the wealthy Walter E. Overell to death and then attempting to sink their yacht with a charge of dynamite at Newport harbor March 15.

Because Beulah Louise was only 17 at the time of the deaths, she can not be subjected to capital punishment under California law. If she is convicted, however, she will be unable to claim any portion of the \$436,854 estate of her parents.

Otto A. Jacobs, one of the chubby defendant's lawyers, has tried unsuccessfully two times since the trial began to have her tried separately.

Assistant Attorney General Eugene D. Williams promised over the week-end that a surprise witness would take the stand today when the trial reconvenes.

Arrest Six For Disorderly Conduct

Six Plead Innocent; Chief To Make Out Informations Against Them

Six young men were arrested by Policeman James Brown on a charge of disorderly conduct at 9:25 p. m. Sunday, in Long avenue, near South Mill street. Represented by counsel in police court this morning, they pleaded innocent whereupon Mayor John F. Haven instructed Chief of Police Robert D. Hanna to make information against them before an alderman.

The six are:

Daniel Micaletti, 1316 Hamilton street; William Wilks, 502 Lyndal street; Francis Borelli, 1210 Cunningham avenue; Guido Filigenzi, 318 East Long avenue; Tom Moses, 415 Galbreath avenue and James Abraham, 1212 Clearview avenue.

In his report to Chief Hanna, Policeman Brown reports he twice warned the young men they were blocking the sidewalk, and he added that, at the time of the arrest they had the sidewalk blocked.

Brown said that one man got away.

Use Ladder To Make Arrest

Agnes McHenry, 804 South Mercer street, was fined \$25, on a charge of being the proprietor of a disorderly house and Felix Dell, 103 Mulberry street, charged being a visitor, was fined \$5, by Mayor John F. Haven in police court, Sunday.

The arrests were made by Lieutenant Thomas Lynch and a squad of police.

According to the police Dell jumped from a second story window, was chased by Policeman Bartoshek and Davis, and caught.

The squad used a ladder to enter the second story window to arrest the McHenry woman, they report.

FALLS ON STREET

Mrs. Ralph Audino 512 Centennial street, fell in a depression in North street Saturday night and sustained injuries to her elbows, thigh and head, according to a report made to police.

MURPHY'S

Water Fans Get Fun With Rubber Life Raft

Water fans everywhere are having fun with the little one-man life-boats used by the Army and Navy during the war.

Saturday evening two of them were in great demand on the Connequessing creek. A fellow in each, they were being towed by a rowboat, with two of the boat occupants hard on the oars.

After getting into midstream, about two hundred yards from the main dock, a jokester (or maybe someone who got tired rowing) cut loose the tow rope, and there they were—marooned!

Paddling with their hands was too slow and ineffective, so the lads jumped in and towed their boats 'till they caught up with the rowboat.

Arrest Follows Auto Accident

After his car reportedly struck an auto driven by Keith Van Fossen at 1:05 a. m. Sunday at South Jefferson and Washington streets, Policeman Lockard arrested Chester C. Garwig, 209 West Leasure avenue, was operating a car while drunk.

Chief of Police Robert D. Hanna stated today he will swear to an information before an alderman against Garwig today.

Imposes Heavy Fine On 'Peeper'

Harry W. Clements, 32 South Mercer street, was arrested at 11:55 p. m. Saturday night when officers caught him, they report, peeping into a window in North Beaver street. He was captured by Lieutenant Lynch and Policeman Boyle. In police court, Sunday, he was ordered by Mayor John F. Haven to pay a fine of \$50.

Arrests Driver Of Automobile

Julian Budzowski, 1417 Jackson avenue, was arrested by Policeman Bartoshek on a charge of driving an auto while intoxicated at 11:55 p. m. Saturday, at South Jefferson street near Long avenue. Chief of Police Robert D. Hanna will swear to an information against Budzowski today.

SURVIVES AFTER 150-FOOT PLUNGE

HIS FACE CONTORTED with pain, Bert Bishop, 29, is gently lowered into a hospital bed by two police officers after narrowly escaping death in a 150-foot plunge from a San Pedro, Cal., cliff. Bishop, a Navy man, failed to notice a sudden turn on the trail he was following and fell to the rocks below. Doctors say he'll recover. (International Soundphoto)

Autopsy Results On Nurse's Body To Be Revealed

LAKE GEORGE, N. Y., Aug. 4.—(INS)—Results of an autopsy on the bruised body of Reva Reznick, 23, New York City registered nurse found drowned in Lake George, will be disclosed today at a conference of Warren county authorities.

The conference is to take place in Lake George village. Present will be Sheriff Edgar J. Baker, Coroner Hilton Dier and District Attorney Clarence J. Herlihy.

Authorities said no new information had been turned up in the mysterious drowning. Miss Reznick's body was found Friday in four feet of water near the Antlers hotel where she was staying with a girl friend, Miss Lorraine Grant, 28, also a nurse at New York's Mt. Sinai hospital.

The girls had been on a double date Thursday with two men identified by Herlihy as Jack Finn, 23, of Stamford, Conn., and Carl Cotten, 25, of Orange, N. J.

Finn drove the others home and then told authorities he and Miss Reznick went for a drive. Herlihy said Finn told him Miss Reznick left his car along the Bolton road near the hotel.

Miss Reznick's funeral will take place in Pittsburgh where she was born.

Pottery Workers Hold Annual Picnic

Workers And Families Enjoy Outing In Idora Park Saturday Afternoon

Shenango Pottery employees and their families, a crowd estimated at several thousands, jammed Idora Park, Youngstown, Saturday afternoon, for a picnic sponsored jointly by the Shenango Pottery and the She-Po-Co club.

In the afternoon for entertainment on the ball field there was a two-hour program of sports and in the dance hall there was dancing throughout the afternoon to music of the park orchestra.

Numerous prizes were given, both for the sports program, and at a drawing in the evening.

Committee in charge of arrangements was Joe Pagley, chairman, Delbert Jackson, Jim Brunswick, Kitty Reiter, Doris Agnew, Tom Griddle, and Bob Stillwagon.

Treadwells Injured In Auto Accident

Word was received here today of injuries to Attorney and Mrs. A. W. Treadwell of San Diego, Cal., in an automobile accident Monday evening, July 28.

They had taken an after dinner drive to Oceanside, Cal., and returning, went up San Juan Hill. At the top of the hill Mr. Treadwell turned sharply to the left and his car went down the hillside into a canyon.

Mrs. Treadwell's right arm and left leg were broken. She also had injuries about the face, including a broken nose. Mr. Treadwell received scratches and bruises but no serious injuries. They were taken to a hospital immediately and both are said to be recovering satisfactorily. They are former New Castle residents.

Savannah Church To Picnic On Saturday

On Saturday afternoon and evening, August 9, the Savannah Methodist Sunday school and community, will have their annual picnic at Lakewood.

A basket picnic supper will be served at 6 o'clock.

Committee Votes No Frivolity On Impending Tour

WASHINGTON, Aug. 4.—(INS)—Members of the special house committee formed to study European relief needs today turned thumbs down on "trans-Atlantic cocktail parties" and "personal sight-seeing tours" during their impending tour abroad this summer.

Committee representatives, who are scheduled to depart for Europe on August 27 for a five-week study, were unanimous in pledging themselves to an "austerity" program suggested by Rep. Herter (R) Mass., vice-chairman of the committee.

Herter, who will be in charge of the tour while abroad, notified the 17 other members who will accompany him "not to bring dinner clothes for the trip" as no lavish social functions can be contemplated.

Rep. Nixon (R) Calif., freshman congressman on the committee, gave full agreement to Herter's suggestion. Nixon declared:

"This will be no junket. It will be no cross-Atlantic cocktail party. There will be no side-show excursions nor sight seeing tours by individual members at public expense."

Highland Church Helps Buy Plane For Missionary

Offering Of \$585 Given At Highland U. P. Church To Assist In Plane Purchase

Dr. Donald McClure, noted missionary to the Aniak tribe of the Soudan, Africa, received a pleasant surprise Sunday during his speaking engagement at the Highland U. P. church, when he was given \$585 by the church to complete the purchase of a plane that he will take back to Africa with him.

Dr. McClure, who is one of the speakers at the current missionary conference at New Wilmington, at the invitation of Dr. D. L. Ferguson, church pastor, spoke at the Sunday school assembly period and morning worship hour of the church, telling of his most interesting work on the "dark continent." During the Bible school hour, he related of the interesting customs of the people.

During the morning worship period, he spoke of the advancement of the work and of his plan of evangelism, agriculture and medical work, which he plans to complete in a ten year period. He told of the extreme levelness of the land there and the difficulty of getting about easily due to the swamps that connect the land.

Dr. Ferguson, at the General Assembly of the church in Kansas in May, had talked to Dr. McClure and learned of his desire to take a plane with him to Africa. Citing that a metal plane would be of more service than other materials, it was learned that approximately \$500 was needed for the new plane. Not knowing that this amount was needed, the congregation of the Highland church generously donated the \$585 to the plane fund, completing it. The contribution came as a surprise to Dr. McClure.

United Engineering Company Has Picnic

Third Annual Outing Attracts Crowd Of 4000 At Cascade Park On Saturday

A throng of 4,000 persons attended the third annual picnic planned by the employees of the United Engineering company and their families Saturday at Cascade Park.

The event was an all-day picnic and started with a basket picnic served at noon in the picnic grove, followed by the usual sports program of races and other contests in the afternoon.

Swimming, boating and the park concessions were other enjoyable pastimes for the members and their guests. Dancing was another diversion and a local popular orchestra provided the pleasing dance melodies.

The kiddies were offered free rides on the park concessions, and dainty refreshments were served. This year's picnic proved highly successful in every respect, and the general chairman, Charles Myler, is given due credit for his untiring work, together with the following committee members: Muriel Mann, Margaret Weir, Clair McGeary, Jack Welsh, Tony Pegante, Harry Moore, Otto Parkkonen, Charles Tip Richards, William Bulney, Charles Smith, Chester Rowe, Reed McCullough, John Rung, Frank Popovich and Ralph Abraham.

On Saturday morning soon after breakfast the one week campers checked out of the Girl Scout Camp, along the Slippery Rock creek, near Rosepoint, and more enthusiastic young campers arrived for the second week. During the second week a unit of Brownies will be added to the girls already established to their cabins.

On Sunday afternoon cars began arriving bringing many visitors to see the young campers and were escorted over the grounds, the campers showing their relatives and friends the cabins, water front, and craft house. Visiting hours were from two to five o'clock and during this time the scouts enjoyed a free time to be with their friends.

After the departure of guests a bounteous chicken dinner with all the trimmings was served. Mrs. W. E. Hughes, of the Mexican unit, is in charge of the camp dining room.

Following retreat a Progressive Scouts Own was presented by the counsellors.

Poland Malletmen Defeat Salem, 14-5

The Poland malletmen defeated Salem, Ohio, 14 to 5, Sunday at Poland's fine new field, with both teams displaying expert horsemanship and hard riding.

During the intermission an unusual entertainment took place with trained goats and mountain donkeys going through clever routines. A reward was offered for any boy 6 to 10 who could stay on the white donkey for two minutes, (there were no takers).

August 15 the Detroit polo team will play the Poland team at 5:30, E. S. T. September 14 the fourth annual Poland horse and pony show will take place, afternoon and evening.

ITALIAN GIRLS SHAMED FOR U. S. FRATERNIZATION

LIVORNO, Italy, Aug. 4.—(INS)—Ten Italian youths forced several girls to disrobe in downtown Livorno today, and made them parade nude in the Piazza Grande for fraternizing with American troops.

Huge crowds were present in the square at the time, and howled their approval of the insult.

United States Military Police and Italian authorities intervened to halt the public display.

Final Session At 'Y' Camp For Central Branch

Some 40 eager youngsters trooped off to Camp Fred L. Rentz Sunday to spend the fifth and final week at the site for members of the central branch of the Y. M. C. A.

With hot weather here and apparently set for a stay, the boys are looking forward to a busy recreational week at the Slippery Rock creek installation.

Next week the "Y" season will close, with some 50 members of the Shenango street branch taking over the site.

Johnson Bronze And Bessemer In State Tourney Finals Tonight

Jay-Bees Need Win Tonight To Become NBC State Champs

Wilkes-Barre, Pittston, Claridge And Tarentum Bow Out Of Tourney Over Weekend; Jay-Bees Defeat Bessemer Saturday 11-2 In Winners Bracket; Game Tonight At 8:15 P. M.

The long road to the finals in the National Baseball Congress state tournament has been reached and tonight at 8:15 o'clock at the beautiful P. J. Flaherty field the Johnson Bronze Jay-Bees team will battle Bessemer in what may be the final game of the tourney. A Jay-Bee victory will give them the state championship.

After a hectic week-end of five tourney games the Jay-Bees are the only undefeated team remaining in the tourney, the following teams having been beaten twice are now out: Claridge, Pittston, Wilkes-Barre and Tarentum.

See Battle Tonight
The Jay-Bees defeated Bessemer Saturday evening 11 to 2 to enter the finals as the only unbeaten club. Bessemer has another chance tonight to stay in the tourney. If they lose they are out, and the Johnson Bronze will wear the diamond of the state champions in a 16-game tourney.

"Hank Herman will be my choice for pitching chores this evening," Manager Mike Duffley stated. Herman defeated Wilkes-Barre last Thursday and if he is right tonight will be tough for Bessemer to beat.

Hardesty For Bessemer
"I'll send Harry Hardesty to the mound tonight in an effort to remain in the tourney," Manager Jim Martin said. "We know we must win tonight and are fighting with our backs to the wall." Martin continued. If a game is necessary Tuesday Joe Pepe, four times winner in the tourney, can go for Bessemer. Pepe is a tired young man today after his fine victory Sunday over Tarentum, 7 to 2.

A banner crowd is looked for tonight with all of Bessemer coming here for the crucial battle in the "do or die" effort. The banner crowd of the tourney will see the game tonight, it was indicated. Interest in the game is at fever heat.

Thus it becomes an all-Lawrence county state championship affair after 14 other teams from all parts of Pennsylvania tried to upset the Jay-Bees and Bessemer and failed.

Wilkes-Barre Tops Pittston
Saturday afternoon the Wilkes-Barre club met and defeated their arch rivals, the Pittston team, in a well played game 2 to 1 with Johnny Pysniak the winning hurler and "Bullet Joe" Kania the loser. Each team had but three hits as the pitchers bled down. Pittston was thereby rubbed out in two straight games by Bessemer and Wilkes-Barre.

Jay-Bees Trim Bessemer
In the nightcap event Saturday evening the Johnson Bronze won Jake LeBece pitching a swell four-hitter handed the Bessemer cements an 11 to 2 defeat, getting to "Steamer" Stanley and Joe Pepe for 15 hits. This was Bessemer's first tourney setback in four previous starts in which they had defeated Indianola, Nemacolin, New Kensington and Pittston.

Games Tonight
8:15 p. m.—Johnson Bronze vs. Bessemer.

rade Saturday night were John Razzano a triple and single, Ty Corbett a double and two singles and Jake LeBece a double and single, while Billy Aloe, Henry Koszela, Jimmy Tropea and Tony Razzano all had two singles apiece. Paul Johnson's double was the best effort Bessemer made at hitting. LeBece fanned eight batters and didn't issue any free tickets.

Tarentum Tops Wilkes-Barre
In the 1:30 o'clock game Sunday afternoon the Tarentum Swirlings sent Walt Farneth by Dick Clark, he had to have relief by Dick Clark as the Swirlings rubbed the Pitts- ton entry out of the tourney with an 8 to 4 defeat. Clark in his stay on the hill fanned six batters. The losing hurler was Suda, relieved by Sudek and J. Pysniak.

Tarentum's "Red" Huet continued his sensational tourney hitting by hitting three doubles in the game, while "Geez" Zender and Lou Heiles also had three hits apiece. Pete Pstrak, 15-year-old third sacker for the Wilkes-Barre team, had four hits, one double, to continue his great tourney hitting with 11 hits out of 19 trips. Stasik, the catcher, had three hits for the visitors from the east.

Tarentum had one big inning, the third, batting in seven runs to take the starch out of Wilkes-Barre and put the game on "ice." The easterners had taken a 4 to 0 lead before the Tarentums broke out in a rash of hits.

Bessemer Erases Tarentum
The strain of playing a double bill second game Sunday, due to the hot sun, Bessemer used their ace, Joe Pepe, again and he responded as usual with his pitching cleverness to allow nine scattered hits and fanned five men.

Lou Heile was sent to the mound by the Tarentums and he gave up

Local Girl Takes Ribbons

Miss Mary Louise Campbell won blue ribbons Saturday at the Sandy Lake horse show. Riding Rex, Miss Campbell won first in the English pair class, next the Pleasure Horse class. Mrs. Degation finished second in the Ladies egg race, Patty Jo Leyde, fourth.

Miss Leyde and Mrs. Degation rode together in the Western pairs to take third place. Betty Jo Leyde finished third in the Pleasure Horse also.

The show was a benefit for the Sandy Lake fire department and was judged by Hap Taylor of Canfield and Seth Gough of Sharon.

Classy Fistic Docket Friday

Fight Fans To Be Treated To One Of Best Cards Possible

There have been lots of fights here, but it is doubtful if ever a more attractive docket was arranged than that set for Friday night at P. J. Flaherty field, when a schedule of eight bouts will be headed by World's Champion Bobby Bell against Junior Featherweight Champion Ted Pittipalio.

Bell defeated the European champion, Laslo Bogacs (of Hungary), to annex the crown, after which he went to Honolulu and defeated the Hawaiian king of bantamweights. Pittipalio copped his honors in Kansas City and recently gave Eddie Marotta a stellar fight at Flaherty field.

The two are fast. Bell punches harder than Pittipalio, but Ted is more clever. Whenever a puncher is pitted against a scienced boxer "it goes" for a good fight. Marotta had weight on Ted, which wore him down but at that took a referee's vote to take the fight from him.

Someone Will Drop!

The Elkins Brothers vs. Al Micarotte heavyweight fight is the talk of the town. Micarotte, a south-paw, is a terrific puncher as he proved against Guy Elisco, whom he punted. If he can sink a long left into Elkins' stomach he is apt to weaken Brothers and go on to win. However, Brothers, who has won his fights because of his aggressiveness and knockout punch, says, "I intend to go after Micarotte the minute the bell rings. I believe my punch is heavier than his and if it comes to a slugfng battle, I'll slug it out with him."

Good Return Bout

The Lionel LaGrew, Cleveland, Chuck Gibbons, Ellwood City, return fight also has the fans talking considerably. Their first fight was a draw, but Gibbons was asked for and won. If they'll repeat. Bill Bradley, New Castle, is training for Pete Stevens, Cleveland, and Guy Elisco is sharpening up for his bout with Sal Brunello.

Pastorboards for the fistic whirls went on sale Friday and already there is a clamor for choice seats, of which there will be 500 ringsides.

Ellwood Moose Bests U. E. Team

Win Round Robin Playoff In Sylvan Heights League At City Course Sunday

Ellwood City Moose, last year's Sylvan Heights League champs, won a leg on the 1947 title, when they defeated United Engineering in a Round Robin playoff by a score of 18-6, Sunday afternoon at Sylvan Heights.

Henry "Mitty" Maclogie, of the Ellwood boys was medalist with a 74 round, two over par, while Larry DeGennaro, of United Engineering, San Maclogie and Andy Justine, of Ellwood Moose, shot 75's. Frank Pezzi had a 76, and Tony Lobozzo and Tony Ottaviani, had 77's while Mike Zuk, had a 78.

The Ellwood City boys were really hot as their score showed, the United team being handicapped when one of their men failed to appear for the match.

Ellwood City Moose will play Universal Sanitary Manufacturing for the title, the pottery boys having previously eliminated Sons of Italy.

Umps Assigned Games In County

Following umpires of the County Association have been assigned to games in the two county leagues:

At Ellwood Moose—B. Price and T. Demalo.
At Nashua—Carbone and Morella.
At New Wilmington—Mielke and Seko.
At Volant—Rotunno and Russo.

Universals Win 26 Straight In League

STEWART'S SINGLE WINS FOR POTTERY

Eddie Stewart's pinch single in the last of the tenth, and the relief hurling by the veteran Peck Houston saved the winning streak for the Universal Pottery Sunday at Washington field, the Pottery nudging the Colored Spartans 6 to 5 in ten innings, by scoring two in the last half of the tenth.

The Pottery have now won 25 straight in the city league for an all-time record and one that will no doubt stand for years. Clark was the losing hurler, and Houston the winner. B. Hammock featured the hitting with long homer, while Cardella had a triple for the victors. Stevie Hutnick led with three hits. Universals are playing the Slovaks at Clifton Flats in a postponed game tonight.

Postponed Games Must Be Played

Starting Tuesday evening, a number of postponed games in the American Legion Junior League will be played at 7:30 o'clock in an effort to decide the first-half championship in the city softball league.

The two teams battled to a 6-6 tie last Thursday night in a game that was called by darkness. Both teams are highly confident of winning this important victory Tuesday.

Dukes-Sons Of Italy Will Battle Tuesday

The Duka D'Abuzzis and Sons of Italy will play at Dean Park Tuesday evening. At 7:30 o'clock in an effort to decide the first-half championship in the city softball league.

The affair was very capably handled by Arles A. Crum, general chairman, with Tom Cunningham serving as clerk of the course, and Charles E. Allen, official scorer.

COLUMBUS CLUB DEFEATS INDIES

Christopher Columbus Club baseball team made it ten wins in a row in the city baseball league Sunday at the P. & L. E. field before a large crowd as they downed the Lawrence Indies 6 to 3 with Lumley hurling a steady-eight-hitter and fanning eight batters, with Evans the losing hurler.

Ridley Harvatine made the circus catch of the day of a hard hit liner by Compello that would have gone for a homer. Heavy hitting in the game was done by—Mrozek, Mosley, J. Mingione and Henry Marshall, the latter with three hits, and Mosley with a double and triple.

WILKES-BARRE TOPS PITTS

Saturday afternoon the Wilkes-Barre club met and defeated their arch rivals, the Pittston team, in a well played game 2 to 1 with Johnny Pysniak the winning hurler and "Bullet Joe" Kania the loser. Each team had but three hits as the pitchers bled down. Pittston was thereby rubbed out in two straight games by Bessemer and Wilkes-Barre.

Jay-Bees Trim Bessemer
In the nightcap event Saturday evening the Johnson Bronze won Jake LeBece pitching a swell four-hitter handed the Bessemer cements an 11 to 2 defeat, getting to "Steamer" Stanley and Joe Pepe for 15 hits. This was Bessemer's first tourney setback in four previous starts in which they had defeated Indianola, Nemacolin, New Kensington and Pittston.

Hutbowers Defeat Great
Ewell Sunday 4-2; Dodgers
Lose To Cubs Again

By LES CONKLIN
(International News Service Sports Writer)
NEW YORK, Aug. 4.—The never-ending charm of baseball, even to a scribe who has been chronicling the sometimes monotonous doings of the big leaguers for a quarter of a century, lies in the fact that anything can happen, and generally does happen in our grand national pastime.

Take the hapless Chicago Cubs, for instance. Up to a few days ago, they had lost 13 out of 15 to Brooklyn this season. Yet the high-flying Dodgers, swaggering into Chicago with a 13-game winning streak, not only have had their skin shattered but also have taken it on the chin for their favorite "cousins" three times in succession.

Dodgers Slipping
Thus the Brooks, who only last Friday morning seemed to have a lock on the National League pennant today find their lead over an ever-dangerous St. Louis club cut to seven games.

The Dodgers wound up their western trip by taking a 6 to 0 paint job from Johnny Schmitz, who finally regained his 1946 wizardry.

Hank Greenberg, who recently benched himself because he felt he was slipping, whacked three home runs for Pittsburgh in a twin-bill with the New York Giants. His third circuit clout enabled the Bucs to negotiate a 6 to 6 tie in the 8-inning nightcap, but the Giants took the first game 11 to 8.

Braves Beat Reds
The Cardinals swept their three-game series with the Phillies by outslugging the Quakers 10 to 8.

Boston's Braves beat the great Ewell Blackwell of Cincinnati, 4 to 2, and were stopped in the nightcap, 6 to 1, by Ken Raffensberger, formerly of the Phillies.

Boston's other team, the Red Sox, was swamped by Detroit 10 to 3 as the Tigers pounded five Hub hurlers for 16 hits. Prince Hal Newhouser of the Bengals romped to his 11th win.

Phil Marchildon of the Athletics racked up his 13th triumph by blanking the St. Louis Browns 2 to 0, but the winning spurt of the Mackmen was halted when the Browns took the nightcap 4 to 3. Two doublers by Cass Michaels gave the Chicago White Sox a 2 to 1 decision over Washington.

Wimbledon proved last year that British tennis stars could not compete favorably with "foreigners." This fact became more pointed recently, when South Africa eliminated Great Britain in the Davis Cup matches.

ten hits and fanned three, with four walks. Two wild pitches gave Bessemer two runs. Heavy hitting in the game was done by Pepe, Huet, Peto, Kantorski, Webb Stanley, Gorez and Helles, all with doubles. Kuzma, the Tarentum third sacker, suffered a bad spike wound on his right hand and had to retire from the game in the eighth inning, being spiked as Penwell slid into third base. He was taken to the hospital where his hand was treated.

Both teams played great ball in the field, only one error being chalked up and that by the veteran Webb Stanley of Bessemer.

Pirates Purchase New York Pitcher

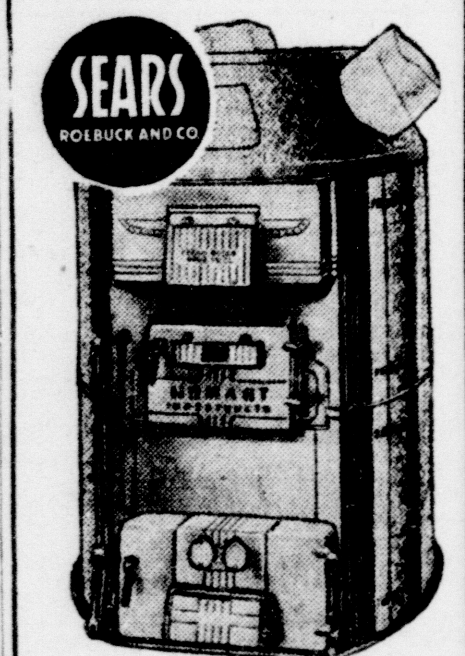

PITTSBURGH, Aug. 4.—(INS)—The Pittsburgh Pirates today announced purchase of Albert Lyons, big right-handed pitcher of the New York Yankees, for an unannounced sum of cash and a player to be delivered next spring. Lyons, who came to the Yanks at the end of last season from Kansas City of the American Association, was credited with one victory and no defeats in the few games in which he worked this year.

The 195-pounder is 29 years old and six feet two inches tall. He will join the Pirates in Chicago on Wednesday.

Burelli, Biddle Win Ring Bouts

Lou Burelli, local middleweight, won another fight at Sharon, Friday evening when he defeated Gene Sebastian in a return bout, the pair having boxed here.

Jack Biddle, boxing Rex Johnson at North Adams, Mass., won in three rounds. Both were down for counts of nine. He fights an opponent named Chuphill at Springfield, Mass., tonight.

Assault has the advantage over money-winning predecessors in that there are more stakes and bigger ones now than ever before, but other leaders in purses had that same edge over earlier horses. The money has grown bigger year by year until now there are six races with an added value of \$100,000 and others of around \$50,000 too numerous to count.

NEW YORK, Aug. 4.—A bald-headed, built-to-voice cyclone hit the sports department with a roar which said:
"Harness racing is the fastest growing sport in the world."
Readers of baseball news and habitués of the baseball press boxes will remember this walking, talking tornado by the name of Buck O'Neill.
Somehow he doesn't seem quite as cyclonic now as he was formerly, when he argued the finer points of hitting with Cobb and Ruth and Speaker and that upstart Ted Williams, who is no upstart to O'Neill.

With Horses Now
To the old baseball writer who now handles public relations for the United States Trotting Association Williams is one of the grand personalities and greatest hitters ever to go sliding up to that plate with the business end of a wagon tongue in his hand.
But what am I saying? O'Neill mustn't be going around talking baseball. He's a trotting horse expert and good will ambassador at large, with and without portfolio and unburdened by privy seal. Putting it another way he's "H"—for heck—a man.
"Let's not get to talking about baseball and heavyweight championship fights and things like that," he said. "I want to tell you that there are some things you don't know when you sit down to whip this here typewriter."
Like what, for instance, Buck old fellow, and you certainly look silly going around this way without a baseball score book in your pocket. "Like, for instance, when you talk about Whirlaway winning a half million dollars as though that added up to the greatest score ever."
"Why, Dan Paton back there around the turn of the century earned one way and another an amount estimated at between \$750,000 and a million dollars in pacing races and exhibitions."
"Yet, harness racing is just now coming into its own as the fastest growing sport in the world."
O'Neill revealed that the purse total for harness racing in 1945 was \$3,200,000, increased to \$6,400,000 last year and scheduled to surpass seven million this year.
He also disclosed that in the recent meeting in California \$12,700,000 was bet for 27 racing days and that the first million dollar day in history was experienced—and enjoyed.
Harness Racing Pays
The big wheel of the harness business is the grand circuit, which is a group of cities scattered over the nation with duly allotted meets on a schedule worked with the parent organization, the U. S. Trotting Association, and bolstered by certain lucrative purses.
They had a \$50,000 pace and a

\$50,000 trot in California and, of course, the Kentucky Derby, Preakness and Belmont Stakes all rolled into one, is the Hambletonian at Goshen, which one year carried \$76,000 and this year will be about a \$50,000 event.

Harriman At Head
The big name and great character behind the sport as perhaps everybody knows is E. Roland Harriman, honorary president of the U. S. Trotting Association.
I recall that it was Mr. Harriman who virtually kept harness racing alive in its lean years and who has brought to harness racing a prestige unknown before.
One more thing: Harness racing is a typically American sport like lacrosse, flag-pole sitting and four dry Martinis before lunch. The whole thing started over in Pennsylvania a couple of hundred years ago, give or take a few decades.
